Contemporary Issues and Cases Business Ethics Concepts and Cases Resolving Moral Issues in Business. The ethical landscape of business is constantly changing, and the new edition of Business Ethics: Concepts and Cases has been revised to keep pace with those changes most effecting business: accelerating globalization, constant technological updates, proliferating of business scandals. Business Ethics: Concepts and Cases introduces the reader to the ethical concepts that are relevant to resolving moral issues in business; imparts the reasoning and analytical skills needed to apply ethical concepts to business decisions; identifies moral issues specific to a business; provides an understanding of the social, technological, and natural environments within which moral issues in business arise; and supplies case studies of actual moral conflicts faced by businesses. Business Ethics Concepts & Cases

The Business Ethics Workshop by James Brusseu focuses on reality and engagement. Students respond to examples and contemporary cases that touch on their own anxieties, desires and aspirations, and this textbook drives that without sacrificing intellectual gravity. It incites student interest and gets to the core of ethical issues.

Business Ethics Pearson

With an emphasis on psychoanalytic theory, Business, Ethics and Society: Key Concepts, Current Debates and Contemporary Innovations provides a clear, concise introduction to the field of business ethics, while addressing contemporary issues and debates around the impacts of artificial intelligence, social media, the gig economy and populist politics on business and society. The book features mini-case studies from a variety of contexts and companies, including Gillette, Nike, Dove, British Airways and Microsoft, as well as thought-provoking questions throughout. Also included are: - Learning objectives - Chapter summaries - Recommended reading Business, Ethics and Society: Key Concepts, Current Debates and Contemporary Innovations serves as an ideal introductory text for students of undergraduate business ethics-related courses. Lecturers can access a range of online resources for use in their teaching, including an instructor's manual, PowerPoint slides and SAGE Business Cases.

Ethics 101 IGI Global

People, very often, undergo an attitudinal change once they leave their educational campuses and make a foray into the business environ. There exists a wide gulf between a management thinker and a manager who actually puts to practice the management principles. The book contains about 50 cases and serves to bridge the gap between the world of the thinker and the world of the doer. The book focusses on the following themes: Human Resource Management; Social Responsibility of Business; Corporate Decision Making; Total Quality Management; Corporate Vision & Leadership. Ethics is built into each case with the central theme being the Industrial man-- his goal, role, accountability, desires and wisdom. The book meant for trainers and HR professionals, would also be useful for students of organizational behaviour. An Instructor's Manual on a diskette would be provided to the trainers on request. Information Security and Ethics: Concepts, Methodologies, Tools, and Applications Routledge

How can you be an ethical corporate citizen in an increasingly complex, multiple-stakeholder world? This is the most pressing question facing businesses today, small and large, local and global. Business Ethics is a thorough yet accessible exploration of the main ethical theories and how these apply to the major stakeholders facing this question. Written from a truly international perspective and supported by diverse and innovative learning features, this book provides the tools and concepts necessary to understand and effectively manage ethical challenges wherever you are in the world. 'Key Concepts' and 'Think Theory' boxes ensure the essential ideas are straightforward to grasp but don't go unchallenged, while 'Ethics in Action' boxes and Case Studies illustrate these ideas at play in the working world. Step into the shoes of a decision-maker with 'Ethical Dilemma' boxes and hear from them first hand with new 'Practitioner Spotlight' boxes, which feature fascinating insights from real-life practitioners on how they manage ethical decisions and what skills they consider to be crucial to success. The fourth edition offers a wealth of new cases and examples as well as updates of favourites from previous editions, including features on AirBnB, TOMS, and McDonalds. Bespoke video interviews with the practitioners from the book and

students, while workshop and flipped classroom activity ideas support lecturers. Revel for Business Ethics Springer

Case Histories in Business Ethics illustrates and extends the role of case histories in the teaching and study of business ethics. Typically, case histories are used to illustrate assertions or arguments, or to stimulate debate about an issue within business ethics. This volume examines that role, illustrating the link between case histories and mo

Understanding Business Ethics Pearson

Business Ethics Concepts and Cases

Moral Issues in Business IGI Global

This book provides readers with a clear, straightforward writing style, an abundance of examples, detailed real-life cases, and current data and statistics. It aims to 1) introduce ethical concepts that are relevant to resolving moral issues in business, 2) develop the reasoning and analytical skills needed to apply ethical concepts to business decisions, 3) identify moral issues specific to business, and 4) examine the social and natural environments within which moral issues in business arise. Chapter topics cover ethics and business, ethical principles in business, the business system, ethics in the marketplace, ethics and the environment, the ethics of consumer production and marketing, the ethics of job discrimination, and the individual in the organization. For anyone in business.

Concepts and Cases John Wiley & Sons

This text offers both a clear and thorough introduction to normative ethical theory and an extensive survey of moral issues that show how ethical theory is applied in practice. The first section presents a survey of the main methods of ethical reasoning, introducing four normative theories in four separate chapters. A case study introduces each chapter to provide a background for further explanations and to illustrate relevant features of the theory. The second section of the text presents separate chapters on ten ethical issues-including such subjects as nuclear war, euthanasia, sexual ethics and capital punishment.

Business Ethics: Concepts & Cases, 5/e SAGE

Revised edition of the author's Business ethics, c2012.

Business Ethics and Sustainability Pearson Education India

This book presents a selection of articles with focus on the theoretical foundations of business ethics, and in particular on the philosophy of management and on human rights and business. This implies identifying and discussing conflicts as well as agreement with regard to the

philosophical and other foundations of business and management. Despite the general interest in corporate social responsibility and business ethics, the contemporary discussion rarely touches upon the normative core and philosophical foundations of business. There is a need to discuss the theoretical basis of business ethics and of business and human rights. Even though the actions and activities of business may be discussed from a moral perspective, not least in the media, the judgments and opinions relating to business and management often lack deeper moral reflection and consistency. Partly for this reason, business ethicists are constantly challenged to provide such moral and philosophical foundations for business ethics and for business and human rights, and to communicate them in an understandable manner. Such a challenge is also of scientific kind. Positions and opinions in the academic field need to be substantiated by thorough moral and theoretical reflection to underpin normative approaches. Far too often, business ethicists may agree on matters, which they approach from different and sometimes irreconcilable philosophical standpoints, resulting in superficial agreement but deeper-lying disagreement. In other cases, it may be of high relevance to identify philosophical standpoints that despite conflicting fundamentals may arrive at conclusions acceptable to everyone.

Managing Corporate Citizenship and Sustainability in the Age of Globalization Cengage Learning

Managing Business Ethics: Making Ethical Decisions teaches students how to navigate ethical issues they will encounter using the weight-of-reasons approach applied throughout the book. This decision-making framework's goal is not to faithfully apply particular philosophical perspectives on what is right, but rather to solve ethical problems. Authors Alfred A. Marcus and Timothy J. Hargrave underscore the need for employees at all levels to carefully consider the ethical implications of their actions using this approach and it can be applied at the individual, organizational, and stakeholder levels. Each chapter provides a case to walk through application of the framework and mini-cases allow students to practice applying this framework on their own. A wide range of real-world case studies are presented, featuring companies such as Facebook, Google, Wells Fargo, Volkswagen, and Amazon. This practical, down-to-earth text also delves into topics not covered extensively by other books such as slow and fast thinking, the inherent conflict between the individual and organization, conformity, and the difficulties of speaking truth to power. Students are offered ample opportunity to engage in thoughtful reflection, discussion, and application as they grapple with ethical issues big and small.

The Business Ethics Workshop Simon and Schuster

This book equips readers with the knowledge, insights and key capabilities to understand and practice business activities from ethical and sustainable vantage points. In our interconnected global business environment, the impacts of business activities are under increased ethical scrutiny from a wide range of stakeholders. Written from an international perspective, this book introduces the theory and practice of ethical and sustainable business, focusing in particular on eco-environmental sustainability, intergenerational responsibilities, current disruptive technologies, and intercultural values of the business community and consumers. Written by an expert author who also brings to the fore non-Western concepts and themes, this book: features positive case studies, as well as transferrable and applicable key insights from such cases; highlights the importance of taking cultural differences into account; takes a transdisciplinary approach which considers findings from research fields including conceptual and empirical business ethics, behavioral economics, ecological economics, environmental ethics, and the philosophy of culture; weaves in pedagogical features throughout, including up-to-date case studies, study questions, thought experiments, links to popular movies, and key takeaways. Written in an accessible and student-friendly manner, this book will be of great interest to students of business ethics, environmental ethics, applied ethics, and sustainable development, as well as business practitioners

striving toward ethical, sustainable, and responsible business practice.

Business Ethics Oxford University Press, USA

In modern business environments, ethical behavior plays a crucial role in success. Managers and business leaders must pay close attention to the ethics of their policies and behaviors to avoid a reputation-crushing scandal. *Business Law and Ethics: Concepts, Methodologies, Tools, and Applications* explores best practices business leaders need to navigate the complex landscape of legal and ethical issues on a day-to-day basis. Utilizing both current research and established conventions, this multi-volume reference is a valuable tool for business leaders, managers, students, and professionals in a globalized marketplace.

Business Ethics and Corporate Governance Routledge

Presents ideas without oversimplifying, while balancing ethical theory and managerial practice Revel(TM) Business Ethics: Concepts and Cases is one of the most widely used texts on business ethics today -- and remains popular among students because of its accessible style and lucid explanations of complex theories and concepts. While cases and issues have been updated extensively for the Eighth Edition, the authors' goals are consistent with previous editions: (1) to introduce the reader to the ethical concepts that are relevant to resolving moral issues in business; (2) to impart the reasoning and analytical skills needed to apply ethical concepts to business decisions; (3) to identify the moral issues involved in the management of specific problem areas in business; (4) to provide an understanding of the social, technological, and natural environments within which moral issues in business arise; and (5) to supply case studies of actual moral dilemmas faced by businesses and business people. Revel is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, Revel replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, Revel is an interactive learning environment that enables students to read, practice, and study in one continuous experience -- for less than the cost of a traditional textbook. NOTE: Revel is a fully digital delivery of Pearson content. This ISBN is for the standalone Revel access card. In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use Revel.

Psychology and Practice Routledge

"Ethics and Integrity in Public Administration" presents cutting-edge perspectives on the role of ethics in public sector management - what it is and where it is going. The contributors include a cross-section of authoritative authors from around the globe, and from both the academy and government. They cover a wide range of topics, diverse theoretical and conceptual paradigms, and global examples, and provide a broader view than what is typically offered in other books. The book includes both theoretical insights and commentaries grounded in practice. Chapters are divided into three parts: Ethical Foundations and Perspectives, Ethical Management and Ethical Leadership, and International and Comparative Perspectives.

Becoming a Trustworthy Leader Pearson
