*Lawyer Negotiation* Cengage Learning

Business Law 2e is the new edition of a textbook that has been positively launched into the higher education market. The text presents business law principles in a clear and easy-to-understand style. The objective of a business law

---

subject is to ensure that students acquire enough knowledge of the law of business so they can recognise and solve simple legal problems, organise their affairs in order to avoid more complex or serious legal problems, and appreciate the connection of legal principles within a range of commercial environments. As the majority of students are required to study business law as part of either a commerce or business degree, this textbook follows a functional approach to the study of business law rather than doctrinal so the principles of business law are contextualised within a business environment.

Business students need to know more than what the law is, they need to know where to find it, how to read it, how to use it and how it impacts on all facets of business. Students who use this textbook will develop a greater awareness of the law and its broad

application to business and commercial environments. *Card & James' Business Law for Business, Accounting, & Finance Students* Aspen Publishers Mallor, Barnes, Bowers and Langvardt's: Business Law, 15e is appropriate for the two-term business law course. As in recent previous editions, the 15th edition includes a mix of actual AND hypothetical cases. This text is our most research-based Business Law text.

This is the 17th UCC Edition (and the twenty-second overall edition) of a business law text that first appeared in 1935.

Throughout its 80 years of existence, this book has

been a leader and an innovator in the fields of business law and the legal environment of business. One reason for the book's success is its clear and comprehensive treatment of the standard topics that form the traditional business law curriculum. Another reason is its responsiveness to changes in these traditional subjects and to new views about that curriculum. In 1976, this textbook was the first to inject regulatory materials into a business law textbook, defining the "legal environment" approach to business law. Over the years, this textbook has also pioneered by introducing materials on business ethics, corporate social responsibility, global legal issues, and e-commerce law. The 17th Edition continues to emphasize change by

---

integrating these four areas into its pedagogy.
