Hindutva is such a geo-cultural concept that has respect, place and feeling of coexistence for everybody. This synchronicity oriented cultural consciousness has made it quite liberal, tolerant and flexible. The situation deteriorated when cultures of external invaders taking advantage of the liberality of this overtolerant culture and started cutting very roots of the same. Too much permissiveness of Hindutva was treated as their cowardice and every possible effort was made to destroy all its basic elements. Even today, various kinds of conspiracies are being hatched with similar aim. Forbearance has turned the supporters and followers of ' Hindutva ' i.e. ' Indianness ' indifferent, impotent and fatalistic. The common-good-oriented philosophy of self- righteousnes did not imply that on the level of this world and behaviour, we forget our duty towards ourselves and not be

alert to self-defence. The policy of abandonment in the face of invaders has nothing to do with the philosophy and principle of coexistence and tolerance. Every time Hindutva failed to fight the invading enemies, they had to not only suffer humiliation but also live under their subjugation. Hindutva is so devoted to pursuit of truth that it does not compromise on any account. For Hindutva, existence of this world is not the real truth, rather it is an illusion; in other words, whatever is there in reality is a form of an eternal and true non-dual Brahman. —From this book

Ascendant is the most important element of Astronomy and Astrology. Ascendant is the fundamental factor or seed of Astrology.

This is the base on which the entire mansion of Astrology or the vast banyan tree stands. The calculative portion of Astrology can be solved by computer to a great extent, but the predictive portion is out of question. Astrology without prediction is just like a flower without fragrance. Many a time learned Astrologers and professional fortune-tellers are hesitant in giving correct predictions. The present book is intended to combat this challenge, by presenting facts and figures Ascendant-wise in separate books so that a clear and concise avenue may be opened for those who are aspiring to know what is there in store for them in the celestial world. With the help of this book people can know their future and they can foretell the future of their near and dear ones. It is our humble endeavour to bestow the common people with knowledge of Astrological prediction. Twelve (12) Ascendants arise in the sky during the course of a day and night. An Ascendant exists for roughly two (2) hours. It is the first step towards giving the prediction on the basis of Ascendant itself. It is hoped that it will be appreciated in the world of Astrology.
