Don't get to the end of your law school career

muttering these words to yourself! Take the first step toward building a productive, successful, and perhaps even pleasant law school experience—read this book! Written by students, for students, *Law School Confidential* has been the "must-have" guide for anyone thinking about, applying to, or attending law school for more than a decade. And now, in this newly revised third edition, it's more valuable than ever. This isn't the advice of graying professors or battle-scarred practitioners long removed from law school. Robert H. Miller has assembled a blue-ribbon panel of recent graduates from across the country to offer realistic and informative firsthand advice about what law school is really like. This updated edition contains the very latest information and strategies for thriving and surviving in law school—from navigating the admissions process and securing financial aid, choosing classes, studying and exam strategies, and securing a seat on the law review to getting a judicial clerkship and a job, passing the bar exam, and much, much more. Newly added material also reveals a sea change that is just starting to occur in legal education, turning it away from the theory-based platform of the previous several decades to a pragmatic platform being demanded by the rigors of today's practices. *Law School Confidential* is a complete guide to the law school experience that no prospective or current law student can afford to be without.

Inspired by shounen-ai manga—melodramatic Japanese comics by girls about gay boys—*Tough Love* is a teen romance and coming-out story about a shy boy named Brian. More realistic than Japanese manga, this story centers on the relationships Brian develops with the boy he likes, Chris, and Julie, the girl who befriends him. Serious issues like

gay bashing, suicide, and coming to terms with one's own sexual identity are depicted with an honest, gentle touch. Socially relevant, fun, immediately accessible, and a bit of a soap opera, *Tough Love* helps gay teenagers to be more comfortable with themselves and less troubled, especially when they're feeling alone and misunderstood.

One L, Scott Turow's journal of his first year at law school and a best-seller when it was first published in 1977, has gone on to become a virtual bible for prospective law students. Not only does

it introduce with remarkable clarity the ideas and issues that are the stuff of legal education; it brings alive the anxiety and competitiveness--with others and, even more, with oneself--that set the tone in this crucible of character building. Each September, a new crop of students enter Harvard Law School to begin an intense, often grueling, sometimes harrowing year of introduction to the law. Turow's group of One Ls are fresh, bright, ambitious, and more than a little daunting. Even more impressive are the faculty. Will the One Ls survive? Will they excel? Will they make the Law Review, the outward and visible sign of success in this ultra-conservative microcosm? With remarkable insight into both his fellows and himself, Turow leads us

through the ups and downs, the small triumphs and tragedies of the year, in an absorbing and thought-provoking narrative that teaches the reader not only about law school and the law but about the human beings who make them what they are. In the new afterword for this edition of *One L*, the author looks back on law school from the perspective of ten years' work as a lawyer and offers some suggestions for reforming legal education.

Flower Confidential St. Martin's Griffin

A pajama party at the Minneapolis-St. Paul International Airport inadvertently helped launch R.T. Rybak's political career (imagine a rumba line one hundred protesters long chanting, "We deserve to sleep, hey!"), but his earliest lessons in leadership occurred during his childhood.

Growing up in a middle-class neighborhood, attending private school with students who had much more than he did, spending evenings at his family's store in an area where people lived with much less, he witnessed firsthand the opportunity and injustice of the city he called home. In a memoir that is at once a political coming-of-age story and a behind-the-scenes look at the running of a great city, the three-term mayor takes readers into the highs and lows and the daily drama of a life inextricably linked with Minneapolis over the past fifty years. With refreshing candor and insight, Rybak describes his path through journalism, marketing, and

community activism that led to his unlikely (to him, at least) primary election—on September 11, 2001. His personal account of the challenges and crises confronting the city over twelve years, including the tragic collapse of the I-35W bridge, the rising scourge of youth violence, and the bruising fight over a ban on gay marriage (with Rybak himself conducting the first such ceremony at City Hall on August 1, 2013), is also an illuminating, often funny depiction of learning the workings of the job, frequently on the fly, while trying to keep up with his most important constituency, his family. As bracing as the "fresh air" campaign that swept him into office, Rybak's memoir is that rare document from a politician: one more concerned with the people he served and the issues of his time than with burnishing his own credentials. As such, it reflects what leadership truly looks like. Becoming Trader Joe University of Michigan Press

It's spring semester at Mirador High in Southern California,

and twenty-four-year-old Jeremy Iversen is going deep undercover to deliver the real deal about the dull classes and fast times of American teens today. Trading in his suit and tie for jeans and skater shoes, Iversen posed as a senior transfer student. He took six classes five days a week, dissected a cat, got sent to detention, hung out at the mall, signed yearbooks, and graduated in cap and gown. He infiltrated the homes of his teenage friends, met their parents, and went to their parties. For one entire semester, he led the life of a modern-day high school student -- and lived to tell all about it. Going way beyond the usual clichés of jock and nerd, the book introduces readers to a revolving cast of fascinating characters from every walk of social life: promiscuous freshmen girls, lunchtime alcoholics, evangelical Christians, perfectionist drug

dealers, masochistic vampires, steroid-raging baseball stars, and one principal who will stop at nothing to make her failing school look good. In this fast-paced exposé, Jeremy Iversen blows the lid off a secret world in which the sexual revolution runs unchecked, where the use of recreational drugs is chronic, and where apathetic teachers don't even bother to teach. This Wild West wonderland, however, lives by strict unwritten rules and ultraconservative politics, creating a pressure cooker of conflict that's bound to explode. High School Confidential isn't confidential anymore.

Law School Confidential, Revised Simon and Schuster

"Sitting down with a young and brilliant mathematician, I asked what he thought were his biggest problems in working toward tenure. Instead of describing difficulties with his equations or his software programs, he lamented that (a) his graduate assistant wasn't completing his tasks on time, (b) his department chair didn't seem to care if junior faculty obtained grants, and (c) a senior professor kept glaring at him in faculty meetings. He knew he could handle the intellectual side of being an academic—but what about the people side? 'Why didn't they offer "Being a Professor 101" in graduate school?' he wondered." Promotion and Tenure Confidential provides that course in an astute and practical book, which shows that P&T is not just about research, teaching, and service but also about human relations and political good sense. Drawing on research and extensive interviews

with junior and senior faculty across many institutions, David D. Perlmutter provides clear-sighted guidance on planning and managing an academic career, from graduate school to tenure and beyond.

Topics include: making the transformation from student and protégé to teacher and mentor seeking out and holding onto lifelong allies how to manage your online reputation and avoid "death by Google" what to say and what not to say to deans and department chairs how meeting deadlines wins points with everyone in your life how, when, and to whom to say "no" when and how to look for a new job when you have a job how (and whom) to ask for letters of recommendation what to do if you know you're not going to get tenure
