school students' behavioural, cognitive and emotional engagement with written corrective feedback and the extent to which mediating factors, such as teachers, peers, feedback options, attitudes and emotions, foster or hinder it. It shows why teachers need to provide students with the purpose of the corrective feedback they provide, explain how such feedback works and introduce strategies that can be employed to engage with it. The idea of 'pornography' is often employed to invoke titillation, anger, and disgust. Stigma and the Shaping of the Pornography Industry explores the effects that this stigmatized identity has on the pornography industry itself. From the video era to the emergence of the internet, to trade shows, white-collar workers, technological innovation, and industry-wide characteristics, this book looks beyond content production to explore how stigma has shaped the structures, practices, norms, and boundaries of the wider sector. By drawing on concepts

such as dirty work, core-stigmatized industries, and outlaw innovation, this book offers rich insights into the ways in which stigma is socially constructed and managed, and the deep structural effects that it has on the industry.
