Literacy and Reading

Programmes for Children and

Young People: Case Studies

from Around the Globe

presents interviews with over

40 librarians from around the

world who tell of their library

programs. The volumes are

arranged geographically with

Volume 1 offering interviews

from library professionals from

the USA and Europe, and with

Volume 2 sharing programs

from Asia, Africa, Australia,

and the Middle East. The

volumes highlight the diversity

of the types of programs

catering to the varying needs of children and young adults throughout the world. Case studies featured in this book outline the details of programs, events, and activities provided by over 40 organizations in the context of social capital and social inclusion. Each interview chapter discusses the contributions made to literacy development and community building of children and teens. With the many variations and examples of best practice, librarians and educators can glean new ideas for their own programs. The interviews reveal the challenges and issues faced and the work being achieved in vastly different environments, in many geographic areas, and in diverse economic, social, and cultural contexts. The programs include those of national and state libraries, public libraries, and mobile libraries carried out by public libraries, NGOs, and commercial organizations in both developed and

developing countries. They also feature programs of multicultural libraries, libraries for indigenous people, and libraries for refugees. This publication complements the range of initiatives and activities carried out by IFLA's Libraries for Children and Young Adults Section that supports library services and reading promotion initiatives catering to children and young adults around the world. These volumes are rich in variety and will provide much food for thought for creating unique and successful library programs.

Private schools have frequently provided innovative, experimental, and creative programs unavailable to students in the public system. The most successful have survived and expanded by offering an educational experience widely perceived to be not just as good as that available in the public system,

but better. In Canada, private schools are enjoying an unprecedented popularity and while most are day-only, over sixty sustain boarding programs, as do two off-shore Canadian schools. The Handbook of Canadian Boarding Schools presents information on the educational environment of each province, then offers comparative information on each boarding school. The information on each school includes: basic data, location, history, philosophy, the campus, boarding facilities, health and safety, administration and faculty, student body and student conduct, academic calendar and program, information technology, student activities and student conduct, admission and costs. The Handbook also supplies several appendices outlining important programs often available through boarding schools, such as Advanced Placement courses and the International Baccalaureate.

For parents in Canada and abroad about to commit substantial sums to their children's education, the Handbook of Canadian Boarding Schools is an essential tool to help them make the right decision. It is also an indispensable resource for supporters of the public system looking for ideas that have worked elsewhere. Arihant Publications India limited Education has gone through numerous radical changes as the digital era has transformed the way we as humans communicate, inform ourselves, purchase goods, and perform other mundane chores at home and at work. New and emerging pedagogies have enabled rapid advancements, perhaps too rapidly. It's a challenge for instructors and researchers alike to remain up to date with educational developments and unlock the full potential that technology could have on this significant profession. The Handbook of

Research on Digital Learning is researchers, and an essential reference source that explores the different challenges and opportunities that the new and transformative pedagogies have enabled. The challenges will be portrayed through a number of case studies where learners have struggled, managed, and adapted digital technologies in their effort to progress educational goals. Opportunities are revealed and displayed in the form of new methodologies, institutions scenarios, and ongoing research that seeks to optimize the use of such a medium to assist the digital learner in the future of networked education. Featuring research on topics such as mobile learning, self-directed learning, and cultural considerations, this book is ideally designed for teachers, principals, higher education faculty, deans, curriculum developers, instructional designers, educational software developers, IT specialists, students,

academicians.
