For succulent results every

than understanding the

science behind the

definitive guide to the

concepts, methods, equipment,

and accessories of barbecue

and grilling. The founder and

editor of the world's most

popular BBQ and grilling

website, AmazingRibs.com,

"Meathead" Goldwyn applies

the latest research to

backyard cooking and 118

thoroughly tested recipes. He

explains why dry brining is

better than wet brining; how

marinades really work; why

rubs shouldn't have salt in

them; how heat and

temperature differ; the

importance of digital

thermometers; why searing doesn't seal in juices; how salt penetrates but spices don't; when charcoal beats gas and when gas beats charcoal; how to calibrate and tune a grill or smoker; how to keep fish from sticking; cooking with logs; the strengths and weaknesses of the new pellet cookers; tricks for rotisserie cooking; why cooking whole animals is a bad idea, which grill grates are best; and why beer-can chicken is a waste of good beer and nowhere close to the best way to cook a bird. He shatters the myths that stand in the way of perfection. Busted misconceptions include:

- Myth: Bring meat to room temperature before cooking. Busted! Cold meat attracts smoke better.
- Myth: Soak wood before using it. Busted! Soaking produces smoke that doesn't taste as good as dry fast-burning wood.
- Myth: Bone-in steaks taste better. Busted! The calcium walls of bone have no taste and they just slow cooking.
- Myth: You should sear first, then cook. Busted! Actually, that overcooks the meat. Cooking at a low temperature first and searing at the end produces evenly cooked meat. Lavishly designed with hundreds of illustrations and full-color photos by the author, this

book contains all the sure-fire recipes for traditional American favorites and many more outside-the-box creations. You'll get recipes for all the great regional barbecue sauces; rubs for meats and vegetables; Last Meal Ribs, Simon & Garfunkel Chicken; Schmancy Smoked Salmon; The Ultimate Turkey; Texas Brisket; Perfect Pulled Pork; Sweet & Sour Pork with Mumbo Sauce; Whole Hog; Steakhouse Steaks; Diner Burgers; Prime Rib; Brazilian Short Ribs; Rack Of Lamb Lollipops; Huli-Huli Chicken; Smoked Trout Florida Mullet-Style; Baja Fish Tacos; Lobster, and many more. *Seasoned with Salt* Arcadia Publishing

Effective sermons and Bible talks require both knowledge of the Scriptures and the skill to communicate the message clearly. *Seasoned with Salt* teaches how to develop this communication skill by utilizing the three building blocks of public speaking: content, organization, and delivery. Topics addressed in this book include the character of the speaker, the selection of a topic, the process of persuasion, organizational patterns, introductions, verbal delivery and language, nonverbal delivery, and

PowerPoint etiquette. This book is for both beginning speakers who want to learn the basics of presentational speaking and experienced speakers who would like to season their skills. The authors draw from their experiences as gospel preachers, collegiate speech teachers, and speech competitors to explain the principles and the practice of seasoned speech. Dr. Warner brings 50 years of classroom instruction and speech coaching to this book while Dr. Cummings infuses timeless Biblical principles with the latest communication theory.
