"The best book to have been written about the Vietnam War" (The New York Times Book Review); an instant classic straight from the front lines. From its terrifying opening pages to its final eloquent words, Dispatches makes us see, in unforgettable and unflinching detail, the chaos and fervor of the war and the surreal insanity of life in that singular combat zone. Michael Herr's unsparing, unorthodox retellings of the day-to-day events in Vietnam take on the force of poetry, rendering clarity from one of the most incomprehensible and nightmarish events of our time. Dispatches is among the most blistering and compassionate accounts of war in our literature.

Mere months before the attack on Pearl Harbor, President Franklin D. Roosevelt sent a volunteer group of American airmen to the Far East, convinced that supporting Chinese resistance against the continuing Japanese invasion would be crucial to an eventual Allied victory in World War II. Within two weeks of that fateful Sunday in December 1941, the American Volunteer Group -- soon to become known as the legendary "Flying Tigers" -- went into action. For three and a half years, the volunteers and the Army Air Force airmen who followed them fought in dangerous aerial duels over East Asia. Audaciously led by master tactician Claire Lee Chennault, daring pilots such as David Lee "Tex" Hill and George B. "Mac" McMillan led their men in desperate combat against enemy air forces and armies despite being outnumbered and outgunned. Aviators who fell in combat and survived the crash or bailout faced the terrifying reality of being lost and injured in unfamiliar territory. Historian Daniel Jackson, himself a combat-tested pilot, recounts the stories of downed aviators who attempted to evade capture by the Japanese in their bid to return to Allied territory. He reveals the heroism of these airmen was equaled, and often exceeded, by the Chinese soldiers and civilians who risked their lives to return them safely to American bases. Based on thorough archival research and filled with compelling personal narratives from memoirs, wartime diaries, and dozens of interviews with veterans, this vital work offers an important new perspective on the Flying Tigers and the history of World War II in China.

Today interviews proliferate everywhere: in newspapers, on television, and in anthologies; as a method they are a major tool of medicine, the law, the social sciences, oral history projects, and journalism; and in the book trade interviews with authors are a major promotional device. We live in an 'interview society'. How did this happen? What is it about the interview form that we find so appealing and horrifying? Are we all just gossips or is there something more to it? What are the implications of our reliance on this bizarre dynamic for publicity, subjectivity, and democracy? Literature and the Rise of the Interview addresses these questions from the perspective of literary culture. The book traces the ways in which the interview form has been conceived and deployed by writers, and interviewing has been understood as a literary-critical practice. It excavates what we might call a 'poetics' of the interview form and practice. In so doing it covers 150 years and four continents. It includes a diverse roster of well-known writers, such as Henry James, T. S. Eliot, Ezra Pound, Djuna Barnes, William Burroughs, Philip Roth, J. M. Coetzee and Toni Morrison, while reintroducing some individuals that history has forgotten, such as Betty Ross, 'Queen of Interviewers', and Julian Hawthorne, Nathaniel's profligate son. Together these stories expose the interview's position in the literary imagination and consider what this might tell us about conceptions of literature, authorship, and reading communities in modernity.

From the first North American scholar permitted to study in residence at Hemingway's beloved Cuban home comes a radically new understanding of "Papa's" life in Cuba Ernest Hemingway first landed in Cuba in 1928. In some ways he never left. After a decade of visiting regularly, he settled near Cojimar—a tiny fishing village east of Havana—and came to think of himself as Cuban. His daily life among the common people there taught him surprising lessons, and inspired the novel that would rescue his declining career. That book, *The Old Man and the Sea*, won him a Pulitzer and, one year later, a Nobel Prize. In a rare gesture of humility, Hemingway announced to the press that he accepted the coveted Nobel "as a citizen of Cojimar." In *Ernesto*, Andrew Feldman uses his unprecedented access to newly available archives to tell the full story of Hemingway's self-professed Cuban-ness: his respect for Cojimar fishermen, his long-running affair with a Cuban lover, the warmth of his adoptive Cuban family, the strong influences on his work by Cuban writers, his connections to Cuban political figures and celebrities, his denunciation of American imperial ambitions, and his enthusiastic role in the revolution. With a focus on the island's violent political upheavals and tensions that pulled Hemingway between his birthplace and his adopted country, Feldman offers a new angle on our most influential literary figure. Far from being a post-success, pre-suicide exile, Hemingway's decades in Cuba were the richest and most dramatic of his life, and a surprising instance in which the famous American bully sought redemption through his loyalty to the underdog.

Including short excerpts from Hemingway's works, these stories of his guns and rifles tell us as much about him as a lifelong, expert hunter and shooter as a man.
