Selected Articles on National Defense Springer Ernest Hemingway is a mythic writer and alpha male. As a hunter and conservationist, he drew greatly from the strong example of Theodore Roosevelt, and he much enjoyed teaching newcomers to shoot and hunt. Including short excerpts from Hemingway's works, these stories of his guns and rifles tell us as much about him as a lifelong, expert hunter and shooter as a man.

The Spatula Melville House Mere months before the attack on Pearl Harbor, President Franklin D. Roosevelt sent a volunteer group of American airmen to the Far East, convinced that supporting Chinese resistance against the continuing Japanese

invasion would be crucial to an eventual Allied victory in World War II.

Within two weeks of that fateful Sunday in December 1941, the American Volunteer Group -- soon to become known as the legendary "Flying Tigers" -- went into action. For three and a half years, the volunteers and the Army Air Force airmen who followed them fought in dangerous aerial duels over East Asia. Audaciously led by master tactician Claire Lee Chennault, daring pilots such as David Lee "Tex" Hill and George B. "Mac" McMillan led their men in desperate combat against

enemy air forces and armies despite being outnumbered and outgunned. Aviators who fell in combat and survived the crash or bailout faced the terrifying reality of being lost and injured in unfamiliar territory. Historian Daniel Jackson, himself a combat-tested pilot, recounts the stories of downed aviators who attempted to evade capture by the Japanese in their bid to return to Allied territory. He reveals the heroism of these airmen was equaled, and often exceeded, by the Chinese soldiers and civilians who risked their lives to return them safely to American bases. Based on thorough

archival research and filled with compelling personal narratives from memoirs, wartime diaries, and dozens of interviews with veterans, this vital work offers an important new perspective on the Flying Tigers and the history of World War II in China. Personnel Selection Oxford University Press From the first North American scholar permitted to study in residence at Hemingway's beloved Cuban home comes a radically new understanding of “Papa ’ s ” life in Cuba Ernest Hemingway first landed in Cuba in 1928. In some ways he never left. After a decade of visiting regularly, he settled near Coj í mar—a tiny fishing village east of Havana—and came to think of himself as Cuban. His daily life

among the common professed Cuban-people there taught him surprising lessons, and inspired the novel that would rescue his declining career. That book, *The Old Man and the Sea*, won him a Pulitzer and, one year later, a Nobel Prize. In a rare gesture of humility, Hemingway announced to the press that he accepted the coveted Nobel as a citizen of Cojimar. In Ernesto, Andrew Feldman uses his unprecedented access to newly available archives to tell the full story of Hemingway's self-adopted country, Feldman offers a new angle on our most influential literary figure. Far from being a post-success, pre-suicide exile, Hemingway's decades in Cuba were the richest and most dramatic of his life, and a surprising instance in which the famous American bully sought redemption through his loyalty to the underdog. *Breeding Budgerigars - A Selection of Classic Articles on Line-Breeding, Records, Colour Improvement and Other Aspects of Budgerigar Breeding* "The best book to
