This book is the color print version (go here for the black and white version: <http://bit.ly/k12blended-print>). This book is your guide to blended teaching in K-12 settings. It was designed to help both pre-service and in-service teachers prepare their classes for blended teaching. The book can be accessed in several different formats at <http://edtechbooks.org/k12blended>. This book begins by orienting you to the foundational dispositions and skills needed to support your blended teaching practice. Then you

---

will be introduced to four key competencies for blended teaching which are: (1) Online Integration - ability to effectively combine online instruction with in-person instruction. (2) Data Practices - ability to use digital tools to monitor student activity and performance in order to guide student growth. (3) Personalization - ability to implement a learning environment that allows for student customization of goals, pace, and/or learning path. (4) Online Interaction - ability to facilitate online interactions with and between students. The final chapter of the book helps you bring all four competencies together as you implement blended teaching in your classroom.

Rhetorical analysis of texts exposes

plausible 'truths' and presumptions implied by the writer's presentation. In this volume, Leslie Gardner analyses the master psychologist Jung, who claimed to be expert at uncovering personal, psychological truths. In his theoretical writings, his rhetoric reveals philosophical ramifications which bear strong similarities to those of the rhetorician of the 18th century, Italian philosopher Giambattista Vico. This book is driven by an interest in arguing that it is possible to read Jung's works easily enough when you have a set of precepts to go by. The paradox of scientific discovery being set out in Jung's grotesque and arcane imagery begins to seem a startling and legitimate

psychology for the 21st century. It is time Jungian studies took on this most appropriate examination of analytical psychology. Bringing Vico to bear directly on Jung's thought has only been cursorily attempted before although much alluded to. We find indeed that some of Jung's ideas derive directly from rhetorical theory, and this volume proposes to highlight Jung's innovations, and bring him into forefront of contemporary psychological thought. Rhetorical Investigations will be of interest to analysts and academics, and also to those studying philosophy and psychology.

The topics covered in this book are the talking points of the moment. The information gleaned from reading the perspectives of these believing scholars will help start the process of discovering answers and coming to terms with the realities of the Church's past and provide tools for lifelong learning and study. This book was written to provide reasons for faith by offering faithful answers to sincere questions.

Book of Mormon Student Manual American Library Association

In this articulate and insightful book, D. Michael Quinn reconstructs the world view of an earlier age in America, finding ample evidence for treasure seeking and folk magic in Joseph Smith's formative years. Folk magic was not unusual for the times and is important in understanding how Mormons may have

interpreted developments. Quinn's impressive research provides a much-needed background for the environment that produced Mormonism's founding prophet.

In 1924, Professor Ueno Eizaburo of Tokyo Imperial University adopted an Akita puppy he named Hachiko. Each evening Hachiko greeted Ueno on his return to Shibuya Station. In May 1925 Ueno died while giving a lecture. Every day for over nine years the Akita waited at Shibuya Station, eventually becoming nationally and even internationally famous for his purported loyalty. A year before his death in 1935, the city of Tokyo erected a statue of Hachiko outside the station. The story of Hachiko reveals much about the place of dogs in Japan's cultural imagination.

In the groundbreaking *Empire of Dogs*, Aaron Herald Skabelund examines the history and cultural significance of dogs in nineteenth- and twentieth-century Japan, beginning with the arrival of Western dog breeds and new modes of dog keeping, which spread throughout the world with Western imperialism. He highlights how dogs joined with humans to create the modern imperial world and how, in turn, imperialism shaped dogs' bodies and their relationship with humans through its impact on dog-breeding and dog-keeping practices that pervade much of the world today. In a book that is both enlightening and entertaining, Skabelund focuses on actual and metaphorical dogs in a

---

variety of contexts: the rhetorical pairing of the Western "colonial dog" with native canines; subsequent campaigns against indigenous canines in the imperial realm; the creation, maintenance, and in some cases restoration of Japanese dog breeds, including the Shiba Inu; the mobilization of military dogs, both real and fictional; and the emergence of Japan as a "pet superpower" in the second half of the twentieth century. Through this provocative account, Skabelund demonstrates how animals generally and canines specifically have contributed to the creation of our shared history, and how certain dogs have subtly influenced how that history is told. Generously illustrated with both color and black-and-white images, *Empire of Dogs* shows that human-canine relations often expose how people—especially those with power and wealth—use animals to define, regulate, and enforce political and social boundaries between themselves and other humans, especially in imperial contexts.

Many readers of the Pearl of Great Price give the facsimiles in the book of Abraham only a cursory glance before turning to something more familiar and understandable. That's because the facsimiles are Egyptian in nature and do not seem relevant in our modern world of gospel enlightenment. So what is their worth? It is self-evident that we have received no useless and unneeded revelations, said Elder Bruce R. McConkie. All that the Lord does has a purpose and serves a need. A Study

Guide to the Facsimiles of the Book of Abraham shows the meaning of every character in the facsimiles and helps readers comprehend their great value.

As translated by the Prophet Joseph Smith, they bear witness of the gospel as had by Adam, Noah, and other ancient patriarchs. Appealing to translation, inspiration, and likening, author Allen J. Fletcher brings to light the more mysterious components of the facsimiles, helping us make sense of them in our day and apply their timeless teachings in our lives.

"What works?" As teachers, it's a question we often ask ourselves about

---

teaching writing, and it often summarizes their own classrooms and students. other, more specific questions we have: What contributes to an effective climate for writing? What practices and structures best support effective writing instruction? What classroom content helps writers develop? What tasks are most beneficial for writers learning to write? What choices should I make as a teacher to best help my students? Using teacher-friendly language and classroom examples, Deborah Dean helps answer these questions; she looks closely at instructional practices supported by a broad range of research and weaves them together into accessible recommendations that can inspire teachers to find what works for

Initially based on the Carnegie Institute's influential Writing Next report, this second edition of What Works in Writing Instruction looks at more types of research that have been conducted in the decade since the publication of that first research report. The new research rounds out its list of recommended practices and is designed to help teachers apply the findings to their unique classroom environments. We all must find the right mix of practices and tasks for our own students, and this book offers the best of what is currently known about effective writing instruction to help teachers help students develop as writers.

The prophet Brigham Young taught the restored gospel of Jesus Christ in a basic,

practical way that gave inspiration and hope to the Saints struggling to build a home in the wilderness. Though more than a century has now passed, his words are still fresh and appropriate for us today as we continue the work of building the kingdom of God. President Young declared that as members of The Church of Jesus Christ of Latter-day Saints we possess the "doctrine of life and salvation for all the honest-in-heart" (DBY, 7). He promised that those who receive the gospel in their hearts will have awakened "within them a desire to know and understand the things of God more than they ever did before in their lives" and will begin to "inquire, read and search and when they go to their Father in the name of Jesus he will not leave them without a witness" (DBY, 450). This book

---

reflects the desire of the First Presidency and the Quorum of the Twelve Apostles to deepen the doctrinal understanding of Church members and to awaken within them a greater desire to know the things of God. It will inspire and motivate individuals, priesthood quorums, and Relief Society classes to inquire, read, search, and then go to their Father in Heaven for a witness of the truth of these teachings. Each chapter contains two sections—“Teachings of Brigham Young” and “Suggestions for Study.” The first section consists of extracts from Brigham Young’s sermons to the early Saints. Each statement has been referenced, and the original spelling and punctuation have been preserved; however, the sources cited will not be readily available to most members. These original sources are not necessary to have in order to effectively study or teach from this book. Members need not purchase additional references and commentaries to study or teach these chapters. The text provided in this book, accompanied by the scriptures, is sufficient for instruction. Members should prayerfully read and study President Young’s teachings in order to gain new insights into gospel principles and discover how those principles apply to their everyday lives. By faithfully and prayerfully studying these selections, Latter-day Saints will have a greater understanding of gospel principles and will more fully appreciate the profound and inspired teachings of this great prophet. The second section of each chapter offers a series of questions that will encourage thoughtful contemplation,

---

personal application, and discussion of President Young's teachings. Members should refer to and carefully reread his words on the principle being discussed. Deep and prayerful study of these teachings will inspire members to greater personal commitment and will help them resolve to follow the teachings of the Savior, Jesus Christ. If individuals and families prayerfully follow the principles in this book, they will be blessed and inspired to greater dedication and spirituality, as were the early Saints who heard these words directly from the lips of the "Lion of the Lord" (HC, 7:434)—the prophet, seer, and revelator, President Brigham Young.

## Christ of Latter-day Saints

After living with Joseph Smith for seven years, biographer Richard Lyman Bushman went “on the road” for a year. After delivering the final proofs of his landmark study, *Joseph Smith: Rough Stone Rolling* to Knopf in July 2005, Bushman crisscrossed the country from coast to coast, delivering numerous addresses on Joseph Smith at scholarly conferences, academic symposia, and firesides. This startlingly candid memoir concludes eleven months later with an article written for *Common-Place* in August 2006. Bushman confesses to hope and humility, an unexpected numbness when he expected moments of triumph, and genuine apprehension as he awaits reviews. He frets at the polarization that dismissed the book as either too hard on Joseph Smith or too easy. He yields to a very human compulsion to check sales figures on amazon.com, but

partway through the process stepped back with the recognition, “The book seems to be cutting its own path now, just as [I] hoped.” For readers coming to grips with the ongoing puzzle of the Prophet and the troublesome dimensions of their own faith, Richard Bushman, a temple sealer and stake patriarch but also a prize-winning scholar, openly but not insistently presents himself as a believer. “I believe enough to take Joseph Smith seriously,” he says. He draws comfort both from what he calls his “mantra” (“Today I will be a follower of Jesus Christ”) and also from ongoing engagement with the intellectual challenges of explaining Joseph Smith.
