The classic irreverent look at the past—now updated with even more appalling facts! Fourteen billion or so years ago, the Big Bang exploded—and it's been downhill from there. For every spectacular discovery throughout history, there have been hundreds of devastating epidemics; for every benevolent despot, a thousand like Vlad the Impaler; for every cup half-full, a larger cup half-empty. This enthralling, enlightening, and devilishly entertaining chronicle of disasters and dastardly deeds brings to light the darkest events in history and the most abysmal calamities to strike the planet . . . so far. 88 BC: Mithridates VI Eupator provides an early example of genocide by massacring 100,000 Romans. 1347: Saint Vitus' Dance Epidemic shimmies across Europe like a deadly disco fever, leaving its victims twitching, uncontrollably leaping, and foaming at the mouth. 1888: Jack the Ripper stalks through the dark alleys of Whitechapel, England, turning the world's oldest profession into the world's most dangerous one. 1939: A Swiss chemist wins a Nobel Prize for developing DDT—and the environment gets another nail in the coffin. 2005: Hurricane Katrina devastates the Gulf Coast. In a classic double whammy, the government response also devastates the Gulf Coast. And much, much more!
Mercenaries: A Guide to Private Armies and Private Military Companies Peace Hill Press

Exploring the beliefs, history and politics of the ordinary people of Muslim countries, Grieve cuts through the complexities as he

examines all aspects of Islam. He also addresses the big issues: can Islam support true democracy? Is true democracy what the West really wants for Muslim countries or are we merely seeking a cover of legitimacy for a policy of 'might is right'? Paul Grieve is an unbeliever - he is not a born-again Muslim, a proselytizer or a frustrated desert romantic. His aim is to inform. The result is an accessible but never simplistic guide that challenges stereotypical views, from women and banking to war and Malcolm X. Complete with advice for visitors to Muslim countries, and with carefully chosen primary sources, maps and illustrations, this is the ideal summary for the reader looking for an unbiased overview of the religious and political world issues that have become part of our everyday lives.

Teacher's Guide for Rasmus, Craftsman of Constantinople Rough Guides UK
Fairchild's Survey of Historic Costume Study Guide is designed to guide students through each chapter of Survey of Historic Costume 5th edition (ISBN: 9781563678066) and help them identify and synthesize core information. With its emphasis on the text and flexibility to be adapted to different course structures and methods, this resource is a valuable tool for instructors as well as students. For every chapter, the Study Guide includes concise Historical Snapshots to situate students in time; At a Glance; tables summarizing of key information about dress from the time period covered by each chapter; space to take notes about major content and themes; questions to help students identify this information in the text; activities in which students must sketch or describe key styles; and further review questions. The Study Guide also provides students with a complete glossary of key terms used throughout the text.

- when you read this travel guide in the comfort of your armchair you will feel as if you are actually visiting the Chora Church with the best local guide

Let 's go! Your guide, WanderStories

Berlitz: Venice Pocket Guide Apa Publications (UK) Limited

Scott confronts conventional historians and looks at the evidence, archaeological and textual, for the proposition that three centuries, roughly between 615 and 915, never existed and are "phantom" years. The author shows in detail how no archaeology exists for these three centuries, and that the material remains of the seventh century closely resemble those of the tenth, and lie directly beneath them. This is the first book on this topic in the English language, though Heribert Illig's books on the same topic, 'Das erfundene Mittelalter' and 'Wer hat an der Uhr Gedreht?' have been best sellers in German-speaking Europe.

Study and Teaching Guide for The History of the Renaissance World Penguin

a travel guide and tour as with the best local guide CQ Press

Genealogists are now using molecular genealogy-comparing and matching people

by matrilineal DNA lineages-mtDNA or patrilineal Y-chromosome ancestry and/or racial percentages tests. People interested in ancestry now look at genetic markers to trace the migrations of the human species. Here's how to trace your genealogy by DNA from your grandparents back 10,000 or more years. Anyone can be interested in DNA for ancestry research, but of interest to Jews from Eastern Europe is to see how different populations from a mosaic of communities reached their current locations. From who are you descended? What markers will shed light on your deepest ancestry? You can study DNA for medical reasons or to discover the geographic travels and dwelling places of some of your ancestors. How do Europeans in general fit into the great migrations of prehistory that took all to where they are today based on their genetic DNA markers and sequences? Where is the geographic center of their origin and the roots of all people? Specifically, how can you interpret your DNA test for family history as a beginner in researching ancestry and your own family history?

Survey of Historic Costume Study Guide Oswal Publishers

Inside Islam: A Guide for Catholics utilizes a popular question-and-answer format so that all Catholics - both the theological novice and the well-catechized - can learn the basics of Islam. Co-authors Robert Spencer and Daniel Ali, a convert from Islam, give you a solid understanding of Islam 's unique teachings including: The Islamic view of God The role of Jesus in Islamic theology Islam 's controversial theology of jihad, or " holy war " Why Islam 's strong beliefs are so attractive to secularized Western societies The role of women in Islam Inside Islam is an essential resource for anyone who wants to know more about this historic religion from the Middle East. After reading this book, you will have a better understanding of the issues discussed every day in the news.

Term Paper Resource Guide to Medieval History
Harper Collins

Forget the stereotype! Giacomo Casanova's (1725-1798) reputation as libertine has sadly eclipsed his talents as scholar, linguist, prolific writer and *manqu'é* doctor. Fortunately for us, he wrote his memoirs at the end of his life on the advice of his doctor to control his propensity to depression. Although these often have been harvested for information on political, cultural and social aspects of his time, the insights they give about medical practice and the lived experiences of illness have been largely neglected. This book addresses this deficiency through exploring in detail what Casanova wrote on a variety of conditions that include venereal disease and female complaints, duelling injuries, suicide, skin complaints and stroke and even piles. These descriptions provide alternately grim and amusing insights about public health measures, the doctor-patient relationship, medical etiquette and the dominant medical theories of the era. To help the reader understand the historical significance of the medical subjects covered, the author integrates throughout the book an extensive historical context drawn from contemporary sources of information and current history of medicine literature

Istanbul Penguin

Mercenaries have been active in battle from the beginning of military history and, as private armies and military support firms, they are a major component of warfare today. Security, military advice, training, logistics support, policing, technological expertise, intelligence, transportation—all are outsourced to a greater or lesser degree in the U.S. military. However, privatization is not a uniquely American phenomenon. Countries as diverse as Saudi Arabia and Australia rely on privatization in one form or another. Historically, heads of state, politicians, and other administrators have justified use of mercenaries on the basis of their effectiveness, and cost-savings. These reasons and others continue to serve as rationales for use of private military companies in military strategy. *Mercenaries: A Guide to Private Armies and Private Military Companies* provides a comprehensive survey and guide to mercenary forces, entrepreneurs, and corporations active on the international military scene today, including a concise history of mercenaries and private armies on land, sea, and in the air. Narrative chapters are amply supplemented by sidebars including biographies of major figures, key statistics, historical and current documents, contracts, and legislation on private armies and outsourced military services. Each chapter includes a bibliography of books, journal articles, and web sites, and a general bibliography concludes the entire work.
