C The Complete Reference 4th Ed Herbert Schildt[www ...

C: The Complete Reference is a popular programming book, marred only by the fact that it is largely tripe. Herbert Schildt has a knack for clear, readable text, describing a language subtly but quite definitely different from C.

C The Complete Reference Herbert

The first thing you should understand when approaching C++: The Complete Reference is that it is not intended to teach you how to program. As the title would suggest, this book is a comprehensive reference into the features of the C++ language.
