The GNU C Reference Manual

A C identifier is a name used to identify a variable, function, or any other user-defined item. An identifier starts with a letter A to Z, a to z, or an underscore '_' followed by zero or more letters, underscores, and digits (0 to 9). C does not allow punctuation characters such as @, \$, and % within identifiers.

User Guide - HP® Official Site

A user guide, also commonly called a technical communication document or

manual, is intended to give assistance to people using a particular system. It is

usually written by a technical writer, although user guides are written by

programmers, product or project managers, or other technical staff, particularly

in smaller companies.. User guides are most commonly associated with

electronic goods ...
