Media & values investigates the moral performance of the media. Based on an exhaustive number of focus groups, surveys, and interviews with senior media staffers in the United Kingdom and Europe, this book charts the changing status of the media as a moral voice. The authors argue that television has lost the authority to espouse a single vision of the proper way to live, and instead reflects the

---

norms of a variety of social groups. This groundbreaking volume addresses the lack of moral certainty reflected both in television programs and their audiences.

The ACT is a standardized test used for college admissions in the United States. It is currently administered by ACT, a nonprofit organization of the same name. The ACT test covers four academic skill areas: English, mathematics, reading, and scientific reasoning. It also offers an optional direct writing test. Wikipedia Based on our many years' experience in HSK and IGCSE Chinese teaching and course contents preparation, we find vocabulary level classification is so important. Students can use CEFR levels for self-

assessment so that they can more clearly define what they need to work on, and work out what they would like to achieve in their target language. We give the Best English-English-Chinese explanations for better understanding. Many students call it "LIFE SAVING STRAW" for their exam. This book is suitable for students with different language background.

collected papers of the Chinese-American theoretical physicist Tsung-Dao Lee are printed. A complete list of his published papers, in order of publication, appears in the Bibliography of T.D. Lee. The papers have been arranged into ten categories, in most cases according to the subject matter. At the beginning of each of the first eight categories of papers, there is a commentary on the content and significance of all of the papers in the category. The two short final categories do not have any commentaries. The editor would like to thank Dr. Richard Friedberg for his assistance in the early stages of the editorial work on this project, as well as for writing commentaries on the papers of Categories III and IV. I would also like to thank Dr. Norman Christ for writing the commentary on the papers of Category VII.
