Designed as one of the first true textbooks on how to use the UNIX operating system and suitable for a wide variety of UNIX-based courses, UNIX and Shell Programming goes beyond providing a reference of commands to offer a guide to basic commands and shell programming. Forouzan/Gilberg begin by introducing students to basic commands and tools of the powerful UNIX operating system. The authors then present simple scriptwriting concepts, and cover all material required for understanding shells (e.g., Regular Expressions, grep, sed, and awk) before introducing material on the Korn, C, and Bourne shells. Throughout, in-text learning aids encourage active learning and rich visuals support concept presentation. For example, sessions use color so students can easily distinguish user input from computer output. In addition, illustrative figures help student visualize what the command is doing. Each chapter concludes with problems, including lab sessions where students work on the computer and complete sessions step-by-step. This approach has proven to be successful when teaching this material in the classroom.

The Witch Needs Her Freedom. Ellara Wist, one of the many witches that fought on the losing side of the war, has no intentions of returning to Outerland when it is finished and she has no intention of letting her fellow witches suffer either. So, during her sentencing for war crimes against the kingdom of Aulen, she boldly offers their new king a proposal: she'll join the king's court as his own personal sorceress in exchange for the lives and freedom of those trapped in Outerland. *The King Needs a Wife.* Terran didn't want to be king. But after years of war and the loss of almost his entire family, he will not put the crown aside. But when a witch from his past offers herself as a sacrifice, he sees her as an equal. So, he instead counters her offer with one of his own: Don't be my sorceress. Be my Queen. And the deal they strike will change their world forever. Desperate, Ellara agrees, swearing to herself that she could never love him. But as time reveals the man she's married not as the monster everyone thought he was and danger draws them closer together, she finds her vow almost impossible to keep.

Bridging the Cross-Culture Gap was written to improve global listening skills and overall fluency in spoken English while helping students to see the pragmatic elements of what they hear and say. The book's multitude of tasks are designed to increase cultural awareness as well as develop the language skills. This book assumes that learners have already had explicit instruction in the mechanics of listening and speaking in English. Each task is identified as having been designed for individual, pair work, small group, large group, or speech. However, tasks are easily adapted or modified based on class dynamics, class size, or session length. A large percentage of the tasks involve film clips representing a diverse group of countries and cultures. Two short lectures are available on the website (see Look Inside) and may be downloaded for free. This book was written to help focus discussions in the classroom on some of the more interesting and exciting topics for students from different linguistic and cultural backgrounds. The tasks were designed to encourage students to take steps toward a deeper and more fulfilling understanding of what it means to be part of an intercultural world.

The first comprehensive examination of the painter's formative years, tracing the evolution of Monet's early style and personal ambitions that drove the rest of his career. This elegant volume is the first to be devoted to the young genius of Claude Monet (1840-1926). Bringing together the greatest paintings from his early career including his first Salon-exhibited work, the Kimbell Art Museum's "La Pointe de la Heve at Low Tide"; "Dejeuner sur l'Herbe (Luncheon on the Grass)" and "The Magpie" from the Musee d'Orsay; and "The Green Wave" and "La Grenouillere" from the Metropolitan Museum of Art it features essays by distinguished scholars, focusing on the evolution of Monet's own distinctive mode of painting. Through the 1860s, the young painter absorbed and transformed a variety of influences, from the lessons of the Barbizon school and his mentor Boudin to the challenges posed by his friends Manet, Pissarro, Renoir, and Sisley. Artistic innovation and personal ambition shaped the work of the celebrated impressionist painter from the very start of his long and illustrious career."

Probing into the history beyond mere historical facts, this book focuses on the 'imaginings' that have determined the course of Bengaluru over the last two-and-a-half centuries. It puts together contemporary accounts of the imaginings of those who were heard at each point of time. This approach is particularly relevant in present day India, of the current time where debates on history are largely a matter of choosing one set of historical facts instead of another. The imaginings in the book relate to those of the Bengaluru of the eighteenth century that the British colonised; the nineteenth century Bangalore they ruled, directly or indirectly; the Bangalore of the twentieth century years after Independence; and the Bengaluru of the twenty-first century. It identifies the events that marked the turning points in the history of the city over those centuries, from the Battle for Bangalore in 1791 to the battles on the city's roads in the twenty-first century. It then picks the 'words' that capture the imagination that prompted each event, whether it was in the form of Thomas Munro's letter home, Seshadri Iyer's report to the Assembly on the plague or the prospectus of the Initial Public

Offer of shares by Infosys. This work, which provides a new view of Bengaluru's history as well as a method of looking at the past that is quite different from most Indian historical studies, will interest historians, sociologists and all academics in the social sciences.

Beginning with a discussion on frameworks of writing history, the volume sheds light on the origins and growth of civilizations, empires, and religions. It covers the geographical, ecological, and linguistic backgrounds, and looks at specific cultures of the Neolithic, Chalcolithic, and Vedic periods, as well as the Harappan civilization. The author discussed the rise of Jainism and Buddhism, Magadha, and the beginning of territorial states. The period of Mauryas, Central Asian countries, Satavahanas, Guptas, and Harshvardhana are also analysed. He highlights important phenomena such as the varna system, urbanization, commerce and trade, developments in science and philosophy, and cultural legacy. He also examines the process of transition from ancient to medieval India and addresses topical issues such as the origin of the Aryan culture. This engaging and lucid text, by one of the best-known scholars of ancient India, will be indispensable for students and teachers of ancient Indian history. This book is the Hindi translation of the English edition.
