As a result of its Clarity Project, the Auditing Standards Board (ASB) has

issued Statement on Auditing Standards (SAS) No. 128, Using the Work of Internal Auditors, to supersede SAS No. 65, The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements (AICPA, Professional Standards, AU sec. 322 and AU-C sec. 610), and amend: SAS No. 122, Statements on Auditing Standards: Clarification and Recodification, section 315, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement (AICPA, Professional Standards, AU-C sec. 315); Various other sections in SAS No. 122 (AICPA, Professional Standards, AU-C secs. 200, 220, 230, 240, 260, 265, 300, 402, 500, 550, and 600); and Statement on Quality Control Standards No. 8, A Firm's System of Quality Control

(Redrafted) (AICPA, Professional Standards, QC sec. 10). SAS No. 128 addresses the external auditor's responsibilities when using the work of internal auditors if it includes (a) using the work of the internal audit function in obtaining audit evidence and (b) using internal auditors to provide direct assistance under the direction, supervision, and review of the external auditor. Consistent with International Standard on Auditing (ISA) 610 (Revised 2013), SAS No. 128 introduces the concept of a systematic and disciplined approach, which is not included in SAS No. 65. Paragraph 13 of SAS No. 128 would require, among other things, as a prerequisite to being able to use the work of the internal audit function, that the

external auditor evaluate the application by the internal audit function of a systematic and disciplined approach, including quality control. Paragraphs A12-A14 of SAS No. 128 provide application guidance with regard to the application of a systematic and disciplined approach. The ASB believes that relative to SAS No. 65, this requirement represents an additional and explicit evaluation that the external auditor would need to perform to conclude on the appropriateness of using the work of internal auditors. Introduction to Auditing (University of Mumbai) Bushra Arshad

A phenomenal, inspirational, true, and touching story, The Final Audit presents the thought-provoking tale of one man's attempt to explain his existence to his children, embarking on a portrayal of his life with Gulliver as his guide and mentor. Author Carnie Matisonn shares his fascinating history, including his lifelong wish to trace valuable artwork stolen from his family by the SS in Nazi-occupied

Norway during World War II. His tale starts with an impoverished childhood in a family devoid and incapable of love, leaving a twelve-year-old boy to survive in a rickety caravan on his own during the post-World War II era. Despite his circumstances, Matisonn peppers his narration with dry humour and irony. He recalls life in the cosmopolitan mining city of Johannesburg during the 1950s and fighting anti-Semitism in an effort to improve his situation through education and a high work ethic. As he achieves huge highs and terrible lows in both his career and marriage, he remains focused on the missing artwork, inadvertently becoming involved with Mossad in an attempt to hunt down a Nazi war criminal. Matisonn finds himself duped into smuggling a Nazi descendent into South Africa by helicopter, flying sorties for the police force, and racing against time to recover treasures of artwork hidden in the cliffs of the Atlantic seaboard with the tide rushing in. Through ups and downs, excitement and hard work, triumph and tragedy, Matisonn shares the story of a truly amazing life.

Audits provide essential accountability and transparency over government programs.

Given the current challenges facing governments and their programs, the oversight provided through auditing is more critical than ever. Government auditing provides the objective analysis and information needed to make the decisions necessary to help create a better future. The professional standards presented in this 2018 revision of Government Auditing Standards (known as the Yellow Book) provide a framework for performing high-quality audit work with competence, integrity, objectivity, and independence to provide accountability and to help improve government operations and services. These standards, commonly referred to as generally accepted government auditing standards (GAGAS), provide the foundation for government auditors to lead by example in the areas of independence, transparency, accountability, and quality through the audit process. This revision contains major changes from, and supersedes, the 2011 revision.
