The global centre of gravity continues to shift to the Asia-Pacific, the most dynamic region in the world. These economies have generally grown faster for longer periods of time than any other major region in world history. Their embrace of globalization has been a central feature, and driver, of their dynamism. The management of Asia-Pacific economic integration and globalization is crucial not only for the countries themselves but also for the state of the global economy, including importantly latecomer developing economies who look to the region for analytical and development policy lessons. Twenty-eight leading international authorities in the field, drawn from nine countries, provide a comprehensive examination of the causes, consequences and challenges of globalization, in a volume that celebrates the distinguished career of Professor Prema-Chandra Athukorala. Among the major issues examined are the region ’ s distinctive approach to trade liberalization, the effects of economic growth on poverty reduction and the labour market, the special challenges of by-passed regions, the role of ideas in influencing policy making, the modalities of connecting to global production networks, and the importance of remittances in economic development. Several country case studies provide in-depth analyses of development processes and outcomes. These include episodes in economic development, the challenges faced by transition economies, the macroeconomics of adjusting to slower growth and rising debt in advanced economies, and the so-called middle-income trap phenomenon.

Sri Lanka ' s conflict and peace processes have gained global attention during recent years. This book presents a comprehensive insight into the politics of reconstruction and development in Sri Lanka, focussing on the ceasefire which was negotiated between the Government of Sri Lanka and the separatist Liberation Tigers of Tamil Eelam in 2002 and which lasted until 2006. Based on extensive empirical fieldwork, the book provides a unique ethnographic account of this specific historical period of peace. It explains how development was shaped by interplay and cooperation, but also by the disparities and conflicts between a variety of local and intervening actors, including local organizations and civil society, LTTE, Government of Sri Lanka, international development cooperation and the Tamil diaspora. Starting from an interdisciplinary viewpoint, the author integrates findings from development sociology with new perspectives on transnationalization and the migration-development-nexus. This provides a fine grained analysis of the emerging development visions and perspectives in relation to transnationalization and global interconnectedness. Making an innovative contribution by linking the analysis of local reconstruction with contemporary phenomena of transnationalization, diasporization, and globalization, this book will appeal to those with an interest in Sociology, Social Anthropology and Political Science. IBPS Bank Clerk Preliminary Exam MegaBook (Guide + Past Papers + 15 Practice Sets) - 2nd Edition Disha Publications

The role of the home, the domestic sphere and the intimate, ethno-cultural identities that are cultivated within it, are critical to understanding the polemical constructions of country and city; tradition and modernity; and regionalism and cosmopolitanism. The home is fundamental to ideas of the homeland that give nationalism its imaginative form and its political trajectory. This book explores positions that are vital to ideas of national belonging through the history of colonial, bourgeois self-fashioning and post colonial identity construction in Sri Lanka. The country remains central to related architectural discourses due to its emergence as a critical site for regional architecture, post-independence. Suggesting patterns of indigenous accommodation and resistance that are expressed through built form, the book argues that the nation grows as an extension of an indigenous private sphere, ostensibly uncontaminated by colonial influences, domesticating institutions and appropriating rural geographies in the pursuit of its hegemonic ideals. This ambitious, comprehensive, wide-ranging book presents an abundance of new and original material and many imaginative insights into the history of architecture and nationalism from the mid nineteenth century to the present day.

TARGET IIFT 2018 (Past Papers 2005 - 2017) + 5 Mock Tests 10th Edition IBPS Bank Clerk Preliminary Exam MegaBook (Guide + Past Papers + 15 Practice Sets) 3rd Edition

Drawing on original ethnographic field-research conducted primarily with former guerrilla insurgents in southern and central Sri Lanka, this book analyses the memories and narratives of people who have perpetrated political violence. It explores how violence is negotiated and lived with in the aftermath, and its implications for the self and social relationships from the perspectives of those who have inflicted it. The book sheds ethnographic light on a largely overlooked and little-understood conflict that took place within the majority Sinhala community in the late 1980s, known locally as the Terror (Bheeshanaya). It illuminates the ways in which the ethical charge carried by violence seeps into the fabric of life in the aftermath, and discusses that for those who have perpetrated violence, the mediation of its memory is ethically tendentious and steeped in the moral, carrying important implications for notions of the self and for the negotiation of sociality in the present. Providing an important understanding of the motivations, meanings, and consequences of violence, the book is of interest to students and scholars of South Asia, Political Science, Trauma Studies and War Studies.
