Integrative health pioneer offers her groundbreaking approach to treating (and preventing) cancer, based on 6 Revolutionary Findings, with a practical program and strategies. When it comes to cancer, conventional doctors are trained to treat their patients exclusively with surgery, radiation, and chemotherapy. These methods are grueling on the whole body--and they don't treat beyond the tumor or the cancer itself. The focus is on the disease, not the whole person--and because of this, the outcomes in conventional medicine can be bleak. But it doesn't have to be this way. Dr. Leigh Erin Connealy has developed a whole-person approach to treating cancer--and these treatments have helped thousands of patients through her Cancer Center for Healing. In *The Cancer Revolution*, Dr. Connealy shows you how to get to the root causes of cancer and the practical steps you can take to get back on the path to healing--from balancing your body's chemistry with nutritional supplements, following a healthy food plan, detoxifying your body and home, exercising regularly, getting deep restful sleep every night, practicing stress reduction techniques, and putting together a supportive healing team. Chemotherapy and radiation have their place in treatment, but in many cases, they are simply not enough, because cancer isn't caused by one thing, but by many different factors. All of these causes must be addressed, not just the tumor. The *Cancer Revolution* will equip you to make impactful, achievable lifestyle choices that fight the root of the disease, and that offer hope for recovery and a cancer-free life.

Addiction Treatment Matching Guilford Press

Reveals how psychedelics can facilitate spiritual development and direct encounters with the sacred • With contributions by Albert Hofmann, Huston Smith, Stanislav Grof, Charles Tart, Alexander "Sasha" Shulgin, Brother David Steindl-Rast, and many others • Includes personal accounts of Walter Pahnke's Good Friday Experiment as well as a 25-year follow-up with its participants • Explores protocols for ceremonial use of psychedelics and the challenges of transforming entheogenic insights into enduring change Modern organized religion is based predominantly on secondary religious experience--we read about others' extraordinary spiritual encounters with God but have no direct experience ourselves. Yet there exist powerful sacraments to help us directly experience the sacred, to help us seek out the meaning of being human and our place in the universe, and to help us see the sacred in the world that surrounds us. In this book, more than 25 spiritual leaders, scientists, and psychedelic visionaries examine how we can return to the primary spiritual encounters at the basis of all religions through the guided use of psychedelics. With contributions by Albert Hofmann, Huston Smith, Stanislav Grof, Charles Tart, Alexander "Sasha" Shulgin, Brother David Steindl-Rast, Myron Stolaroff, and many others, this book explores protocols for ceremonial and spiritual use of psychedelics, including LSD, psilocybin, ayahuasca, and MDMA, and the challenges of transforming entheogenic insights into enduring change. It examines psychoactive sacraments in the Bible, myths surrounding the use of LSD, and the transformative ayahuasca rituals of Santo Daime. The book also includes personal accounts of Walter Pahnke's Good Friday Experiment as well as a 25-year follow-up with its participants. Dispelling fears of inauthentic spirituality, addiction, and ill-prepared encounters with the holy, this book reveals the potential of psychedelics as catalysts for spiritual development, a path through which faith can directly encounter God's power, and the beginning of a new religious era based on personal spiritual experience.

Brand Touchpoints Counselcare Connection

Brand touchpoints are used to reinforce the basic premise of branding, which is to distinguish brands from their competitors and remain memorable, ultimately keeping customers resolute in their allegiance. Information related through brand touchpoints increases brand familiarity, contributes to a brand's value, improves attitudes towards a brand, and in general is essential to maintain an ongoing relationship with consumers. Given the role of brand touchpoints, a look at contemporary issues is warranted. *Brand Touchpoints* is a collection of chapters by academics, practitioners and designers on the current evolution of brand communication. The book looks at existing issues in the marketplace and ways to influence the branding process. First, the changing role of brand touchpoints is reviewed in terms of the move from physical assets such as stores, trucks, and outdoor billboards to digital applications. A foundational sense of how consumers develop inferences surrounding brand touchpoints is then explored. Following this, prescriptive models for building brands to enhance the effectiveness of brand touchpoints are proposed. Then the ability of tangible touchpoints such as product design, packaging, and other tangible aspects of the brand to inform macro branding is reviewed. A case is made for more research on multisensory aspects of a brand. Chapters in the final section of the book explore brand touchpoints as it influences microtrends of prosocial consumers, children and ardent sports fans. To conclude, novel linkages in brand literature that set up an agenda for future research as it relates to consumer culture is discussed. The diverse set of chapters in this book offer a well-timed, in-depth summary of the various academic literature and industry phenomenon. Chapters are contributed by leading academic and industry experts which include: Chris Allen, University of Cincinnati; Clarinda Rodrigues, Linnaeus University; Claudio Alvarez, Baylor University; Conor Henderson, University of Oregon; Dominic Walsh, Landor Associates; Doug Ewing, Bowling Green State University; Drew Boyd, University of Cincinnati; Frank R. The Addiction Counselor's Desk Reference Routledge

"Since our last edition, much has changed in our world. We've lived through and continue to negotiate the consequences of a pandemic, the impact of significant political polarization, racial unrest, gun violence as well as an increase in drug overdoses. These are significant changes in our society which have forced us to examine our approach to clients in need of mental health and addiction services. The use of teletherapy significantly increased during the peak years of the pandemic and continues to be a viable option for clients. The increase in overdoses during the pandemic necessitated the utilization of teletherapy. Access to addiction treatment was limited and face-to-face attendance at support meetings moved to a virtual platform. The need for mental health and addiction services has significantly increased since our last edition and it is our hope this revised text will contribute to the education and training of counselors in order to meet those needs"--
