This carefully crafted ebook: “ 5 Christmas Books (Unabridged and Fully Illustrated: A Christmas Carol; The Chimes; The Cricket on the Hearth; The Battle of Life; The Haunted Man) ” is formatted for your eReader with a functional and detailed table of contents. A Christmas Carol The tale has been viewed by critics as an indictment of 19th-century industrial capitalism. It has been credited with restoring the holiday to one of merriment and festivity in Britain and America after a period of sobriety and sombreness. The Chimes The story of Trotty Veck, a poor ticket porter, whose outlook is changed from despair to hope by the spirits of the chimes on New Year's Eve. The Cricket on the Hearth Short tale written by Charles Dickens as a Christmas book for 1845 but published in 1846. The title creature is a sort of barometer of life at the home of John Peerybingle and his much younger wife Dot. When things go well, the cricket on the hearth chirps; it is silent when there is sorrow. Tackleton, a jealous old man, poisons John's mind about Dot, but the cricket

through its supernatural powers restores John's confidence and all ends happily. The Battle of Life In this tale, the main characters live in a rural English village that was the site of an historic battle. The battle comes to symbolize the struggles these characters face in their daily lives. The Haunted Man Is a novella by Charles Dickens first published in 1848. It is the fifth and last of Dickens' Christmas novellas. The story is more about the spirit of the holidays than about the holidays themselves, harking back to the first of the series, A Christmas Carol. The tale centers around a Professor Redlaw and those close to him. Charles John Huffam Dickens (7 February 1812 – 9 June 1870) was an English writer and social critic. He created some of the world's most memorable fictional characters and is generally regarded as the greatest novelist of the Victorian period. During his life, his works enjoyed unprecedented fame, and by the twentieth century his literary genius was broadly acknowledged by critics and scholars. His novels and short stories continue to be widely popular.

The Product Manager's Handbook W.H. Freeman

Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans

that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got *The Yugo: The Rise and Fall of the Worst Car in History*. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.
