Land Rovers have been used by the military since they were introduced, in Series I form, in 1948. The Land Rover's rugged, 'go-anywhere' reputation has led to its use in a vast number of military roles, from general-purpose workhorse to special forces reconnaissance vehicle, ambulance, communications vehicle and weapons platform. Additionally, a number of one-off prototypes have been produced for various trials. This manual provides a unique insight into the world of military Land Rovers, with an emphasis on military operation and equipment.

America, Incorporated Compellingly argues that good health is as much social as it is biological, and that the racial health gap and the racial wealth gap are mutually constitutive. *The Danger Zone Is Everywhere* shows that housing insecurity and the poor health associated with it are central components of an unjust, destructive, and deadly racial order. *Housing discrimination is a civil and economic injustice*, but it is also a menace to public health. With this book, George Lipsitz reveals how the injuries of housing discrimination are augmented by racial bias in home appraisals and tax assessments, by the disparate racialized effects of policing, sentencing, and parole, and

by the ways in which algorithms in insurance and other spheres associate race with risk. But *The Danger Zone Is Everywhere* also highlights new practices emerging in health care and the law, emphasizing how grassroots community mobilizations are creating an active and engaged public sphere constituency promoting new forms of legislation, litigation, and organization for social justice.

The evolving design of New York subway ephemera: a collector's story New York City Transit Authority: Objects originated as a photography experiment. In 2011, New York photographer Brian Kelley began documenting collections of used MetroCards in his Brooklyn studio, arranging them in various grids with the goal of perfecting the lighting of an image. His brother suggested he make the grids more interesting by finding other types of cards. Having exhausted his search for discarded MetroCards in many of the city's 472 subway stations, Kelley turned to eBay for new finds. The online rabbit-hole gave him a crash

course in the history of NYC transportation. He discovered tokens dating back to 1860, a ticket stub from 1885 when it cost three cents to take the train across the Brooklyn Bridge, as well as patches, matchbooks, tokens, timetables, pins and signs, posting his photographs of these finds on Tumblr and Instagram. Six years on, many MTA employees follow and advocate his project, sometimes contacting him with information and tips on rare items. As the collection grew, Kelley recognized that there were no comparable digital archives documenting the city's transportation evolution. New York City Transit Authority: Objects is a story told through the evolving design that spans decades of the city's history. Kelley's objects tell a greater story of New York's past. For him, The NYCTA Project remains a photography experiment and self-funded hobby, archiving the culture of his home city. For the reader, it's an intimate view of the city's history that merges design and infrastructure over the past 150 years.

The Danger Zone Is Everywhere

When you get up in the morning, open your soldier's manual and let it serve as your guide throughout the day to instructions and directions on how to walk, how to talk, and how to cope with everyday situations. It is no secret what God can do. What he's done for others, he'll do for you. Be armed and dangerous; know your soldier's manual. Don't leave home without it. And never lend it out to anyone for any reason. Bedell Group Initiative
