The current situation in sport reveals a large deficit concerning concepts for future developments and projects. Many traditional values, ethical standards and educational ideals are losing their significance - in particular for the young generation. In contrast, commercial media sport as well as international top sport stand to gain from the changing rating of sport in our society. On the other hand, matters of fitness, health and of general wellness are firmly grounded in the daily routine of the population. The gap in the development of sport is widening. What answers, concepts or problem-solving does a science, which deals with these topics, come up with? These are the guidelines of the "Club of Cologne", which is trying to suggest perspectives by means of active research and subsequent publications, to present models and strategies, and to enrich public discussion by offering approaches or solutions.

As It Was Given to Me

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally.

With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Berek The Blackguard

Industriali e banchieri, servitori delle istituzioni e accademici, uomini dello spettacolo e della cultura, umanisti e scienziati, laici e cattolici. Personaggi noti, colti nei loro lati più inediti, e personalità che, invece, in pochi conoscono. In questo libro Paolo Bricco ha costruito una galleria di ritratti che permette di andare al cuore delle persone e che consente di capire che cosa sia oggi il cuore dell'Italia. Ognuno di loro ha una storia di successi e di fallimenti, di paure e di speranze, di dolori e di felicità, di passato e di futuro. Tutti questi ritratti compongono la storia corale di un'Italia impegnata in un'eterna transizione e sempre in bilico fra declino e trasformazione. Un Paese qualche volta feroce prima di tutto verso se stesso, ma non di rado caratterizzato da slanci di generosità verso gli altri. Un Paese meno centrale e importante di un tempo, in una crisi profonda, ma ancora animato da una vitalità e da una capacità di mutare pelle che sono lo specifico dell'enigma italiano.
