
Calculus 1 Worksheet 14 Solutions Solutions

Right here, we have countless book Calculus 1 Worksheet 14 Solutions Solutions Solutions and collections to check out. We additionally pay for variant types and after that type of the books to browse. The suitable book, fiction, history, novel, scientific research, as capably as various extra sorts of books are readily handy here.

As this Calculus 1 Worksheet 14 Solutions Solutions Solutions, it ends in the works creature one of the favored books Calculus 1 Worksheet 14 Solutions Solutions Solutions collections that we have. This is why you remain in the best website to see the incredible books to have.

Worksheet 1: Calculus

Review Answers and

Solutions

The solution sets for the first and second inequalities are

respectively $(x \geq 1)$

and $(-2 < x < 2)$

Both inequalities must be satisfied simultaneously, therefore the domain of the given function is the intersection of the sets

$(x \geq 1)$ and $(-2 < x < 2)$ which is given by $(1 \leq x < 2)$ Solution to Question 2

Calculus 1 Worksheet 14 Solutions

Calculus I | John Cobb

sin(u) + C = 1/4

sin(x) + C. c) Using u = ln(x) gives ∫ ln(x) x dx = ∫ u du = 1/2 u² + C = 1/2 (ln(x))² + C. d) Using u = tan(x) gives ∫ tan²(x) sec²(x) dx = ∫ u² du = 1/3 u³ + C = 1/3 (tan(x))³ + C. (c) Here was what I used for u and dv and the solutions: a) Using u = x and dv = e^x dx gives ∫ x e^x dx = x e^x - e^x + C. b) Using u = x and dv = sin(x) dx gives ∫ x sin(x) dx = -x cos(x) + ∫ cos(x) dx = -x cos(x) + sin(x) + C. c) Using u = ln(x) and dv = x² dx gives ∫ x² ln(x) dx = 1/3 x³ ln(x) - 1/9 x³ + C. *Calculus 1 Worksheet 14*
