An excellent textbook on  
materials science, perfectly  
matched with my course, but  
obsolete! Apparently, the book  
used to come with a CD-  
ROM, but since this was  
changed to an online  
companion web-site, all the  
answers to the chapter  
questions AND the last 5  
chapters of the book were  
available in pdf format.
