Approaches to Learning and Teaching Geography Oxford University Press - Children

Synopsis coming soon.....

IGCSE Biology Cambridge University Press

This is a true story of an ordinary boy who grew up to have what I believe to be an extraordinary tale to tell. This is the tale of a lad growing up in post-war Britain and of the trials and tribulations of life in a boarding school and an attempt to earn his wings at Cranwell. This is also the account of how letters sent home over a fifteen-year period prompted the author to write his memoirs of these years spent in what is now Bangladesh and of the exciting, but often dangerous times of being caught up in the Indo-Pakistan War and the birth of a new national slice of history barely remembered today. This is about his experiences as a young tea planter adapting to the vagaries of a strange language and living conditions in a Third World country as well as the droughts and cyclones that at times resulted in so much loss of life and infrastructure, learning to live and adapt to the harsh and often bone-wearying humidity and heat of the monsoons but relishing the beauty and the blessing of the cooler winter months. It's a factual story of how tea in the 1960s and 1970s was produced from two leaves and a bud to a perfect cup of tea, how sport and club life played a major part in helping to dispel the loneliness he felt at being often the only Britisher for many miles, and how his friendships were made, many of which endure to this day. Simon Watt sets out the tale of his first thirty-five years in a frank and candid way. It is an honest, often moving account of his life up to that time. It is a book written with sincerity and humour while revealing a fascinating story.

Complete Geography for Cambridge IGCSE® & O Level Hodder Education

This edited book is a comprehensive resource for understanding the history as well as the current status of educational practices in

Singapore. It is a one-stop reference guide to education and educational issues/concerns here. There are three sections: Part 1 provides a sectorial overview of how education has been organized in this country such as preschool, special needs, primary and secondary, and adult education divisions. In Part 2, contributors critically delve into issues and policies that are pertinent to understanding education here such as underachievement, leadership, language education, assessment, and meritocracy to question what Part 1 might have taken for granted. Part 3 contains the largest number of contributors because it offers a scholarly examination into specific subject histories. This section stands out because of the comparative rarity of its subject matter (history of Physical Education, Art, Music, Geography Education, etc.) in Singapore.

Cambridge O-Level Statistics Coursebook Springer Nature
5 full tests fully aligned with the revised Cambridge IGCSE First Language English 2020 syllabus. Ideal for use in the final year of the Cambridge IGCSE First Language English course, this book provides scaffolded support for students approaching the examination. Tea, Tennis, and Turbulent Times Oxford University Press, USA
Embed geographical and critical thinking skills for the latest Cambridge IGCSE, IGCSE 9-1 and O Level (0460/0976/2217) syllabuses with the skills focused approach, from examiners David Kelly and Muriel Fretwell.

Education in Singapore Cambridge University Press
This book comprises studies that reflect on various influences of excessive tourism development in protected areas, and solutions designed and initiated to mitigate such challenges. A large proportion of tourism in Mediterranean destinations constitutes nature-based tourism, in particular, tourism in parks and protected areas. As a destination experiences higher intensity and density of tourism, the potential conflict between maintaining a healthy natural environment and economic development also increases. This has urged planners and decision-makers to devise and adopt innovative approaches that seek to strike a balance between tourism development and nature conservation. This book demonstrates the importance of collaboration across and beyond disciplines and of all groups of stakeholders for maximization of societal impacts and tourism-related benefits.
