Conrad Kain is a titan amongst climbers in Canada and is well-known in mountaineering circles all over the world. His letters to Amelie Malek-a life-long friend-offer a candid view into the deepest thoughts of the Austrian mountain guide, and are a perfect complement to his autobiography, Where the Clouds Can Go. The 144 letters provide a unique and personal view of what it meant to immigrate to Canada in the early part of the twentieth century. Kain's letters are ordered chronologically with annotations, keeping the sections in English untouched, while those in German have been carefully translated. Historians and mountain culture enthusiasts worldwide will appreciate Kain's genius for description, his passion for nature, his opinions, and his musings about his life.

Where the Clouds Can Go Rocky Mountain Books Incorporated He brought glamour and imagination into the sport of mountaineering as few guides have done before him. Recalling his personality and amusing stories one should not forget that his approach to mountains was first and foremost an aesthetic one; he saw a peak first as something beautiful—the technical problem was always secondary — and nothing counted beside that vision. Of all the mountain guides who came to Canada in the late 19th and early 20th centuries, Conrad Kain is probably the most respected and well known. In this internationally anticipated reissue of Where the Clouds Can Go-first published in 1935, with subsequent editions in 1954 and 1979-Rocky Mountain Books has accentuated the original text with an expanded selection of over 50 archival images that celebrate the accomplishments of Conrad Kain in the diverse mountain landscapes of North America, Europe and New Zealand. The new foreword by acclaimed mountaineer and filmmaker Pat Morrow puts Kain's mountaineering adventures, numerous explorations and devout appreciation of nature into a contemporary context, ensuring that the exploits of this remarkable individual will remain part of international mountain culture for years to come. To commemorate the 100th anniversary of Kain's arrival in Canada, the Conrad Kain Centennial Society was formed in 2008 to celebrate his many achievements and to develop legacy projects in his memory. This expanded edition of Kain's book will help carry

his passion for mountaineering to a new generation of readers and adventurers.

Not Won in a Day Rocky Mountain Books Ltd

On January 20, 2003, at 10:45 a.m., a massive avalanche in the Selkirk Range of British Columbia struck three members of two guided backcountry skiing groups and buried them. After a frantic hour of digging by those still standing, an unthinkable outcome became reality: seven people were dead. The tragedy made international news, splashing photos of the seven dead Canadian and US skiers on television screens and newspaper pages. The official analysis was that guide error was not a contributing factor in the accident. This interpretation was insufficient for some of the victims' families, the public and some members of the guiding community. Buried is the assistant guide's story. It renders an answerable truth about what happened by delving deep into the human factors that played into putting people in harm's way as well as the peace that comes from accountability and the personal growth that results from understanding.

An unparalleled memoir that grapples with the complex relationships that exist within the mountaineering community and how personal choices can have deep and tragic consequences. On January 20, 2003, at 10:45 a.m., a massive avalanche released from Tumbledown Mountain in the Selkirk Range of British Columbia. Tonnes of snow carried 13 members of two guided backcountry skiing groups down the 37-degree incline of a run called La Traviata and buried them. After a frantic hour of digging by remaining group members, an unthinkable outcome became reality. Seven people were dead. The tragedy made international news, splashing photos of the seven dead Canadian and US skiers on television screens and the pages of newspapers. The official analysis did not specifically note guide error as a contributing factor in the accident. This interpretation has been insufficient for some of the victims' families, the public and some members of the guiding community. Buried is the assistant guide's story. It renders an answerable truth about what happened by delving deep into the human factors that played into putting people in harm's way. The story begins buried metres deep in snow, and through care-filled reflection emerges slowly like spring after a long winter, nurturing a hopeful, courageous dialogue for all who make journeys through the mountains of their life. The story illustrates the peace that comes from accountability and the growth that results from understanding.

Edward Feuz Jr University of Alberta

An intimate look at the life and climbs of Swiss alpine guide Edward Feuz Jr., patriarch of Canadian alpinism and genuine lover of mountains. As a young Swiss boy, Edward Feuz Jr. (1884-1981)

developed an insatiable passion for climbing. In time, he traded his Lausub reputation for that of a responsible Swiss guide and was eventually drawn to Canada in the footsteps of his father, Edward Feuz Sr. (1859-1944), who was one of the first Swiss guides hired by the Canadian Pacific Railway in 1898 to develop the alpinism in western Canada. Handsome and charismatic, Edward (while still in training for his trade) was instantly smitten with the Canadian landscape -- and so were his guests. They raved about the young man who showed such exceptional skills. He guided them all -- professors, women of independent means, students, newspaper people, a Hindu holy man, even the creator of Sherlock Holmes, Sir Arthur Conan Doyle -- through untrailed forests, across roaring streams, up icy glaciers, and to the tops of rocky summits. Young and old, they were all enchanted, and so they returned time and again -- to the mountains and to their friend Edward. Edward Feuz Jr.: A Story of Enchantment transports the modern reader back to a simpler time, when mountaineering in North America was less about pushing personal limits and more about the splendour of grand vistas, wide open spaces, and the opening of the West.
