Immigration policy is a subject of intense political and public debate. In this

second edition of the widely recognized and authoritative work *The Making of the Mosaic*, Ninette Kelley and Michael Trebilcock have thoroughly revised and updated their examination of the ideas, interests, institutions, and rhetoric that have shaped Canada's immigration history. Beginning their study in the pre-Confederation period, the authors interpret major episodes in the evolution of Canadian immigration policy, including the massive deportations of the First World War and Depression eras as well as the Japanese-Canadian internment camps during World War Two. New chapters provide perspective on immigration in a post-9/11 world, where security concerns and a demand for temporary foreign workers play a

defining role in immigration policy reform. A comprehensive and important work, *The Making of the Mosaic* clarifies the attitudes underlying each phase and juncture of immigration history, providing vital perspective on the central issues of immigration policy that continue to confront us today.

I hope Wei's story, which is fictional but typical of many Chinese business people, will help you decide if immigrating to Canada is right for you, your family and your business. Once you have read Wei's story, I will be glad to talk with you about immigration requirements, obtaining visas, work or study permits and how to bring your family to Canada. I can connect you with a lawyer that can speak your language. Be aware that immigration requirements can change.

This book is current as of the day it was published. You will need to check with us at ClearWay Law for the latest updates. Now, sit back and travel with me to Canada through Wei's journey...

If you intend to visit Canada, study or work in Canada, immigrate to Canada, or become a Canadian citizen, you need to go through an application process. A typical application includes submitting some forms and documents to the immigration authorities. Some applications, however, mandate you to attend a phone or face to face interview with an immigration or border

services officer. Most of the immigration applications are time-consuming and nerve-racking. Several laws, policies, and procedures govern immigration applications. Many of them, such as inadmissibility rules, are complex or ambiguous. Even when you submit a simple eTA application, you need to answer questions about these complex aspects of immigration. Al Parsai is a Regulated Canadian Immigration Consultant. He also teaches the immigration diploma courses at Ashton college and the Global School of Corporate Excellence. Al has eight years of work experience as an immigration consultant and more than 22 years of

The Lost Canadians

Fields Publishing
September 11, 2001
marked the beginning of a new era of security imperatives for many countries. The border between Canada and the United States suddenly emerged from relative obscurity to become a focus of constant attention by media, federal and state/provincial

governments on both sides of the boundary, and the public at large. This book provides a comprehensive examination of the Canada-USA border in its 21st century form, placing it within the context of border and borderlands theory, globalization and the changing geopolitical dialogue. It argues that this border has been reinvented as a 'state of the art', technology-steeped crossing system, while the image of the border has been engineered to appear consistent with the 'friendly' border of the past. It shows how a border can evolve to a heightened level of security and yet continue to function well, sustaining the massive flow of trade.

It argues whether, in doing so, the US-Canada border offers a model for future borderlands. Although this model is still evolving and still aspires toward better management practices, the template may prove useful, not only for North America, but also in conflict border zones as well as the meshed border regions of the EU, Africa's artificial line boundaries and other global situations.

Beyond Walls: Re-inventing the Canada-United States Borderlands

"During the 1870s, 7,000 Mennonites - descendants of Dutch and German Anabaptists - arrived in Canada to settle in the newly created province of Manitoba. While in Europe, they had steadily moved eastward under pressure of

persecution and governmental restrictions until they settled in "foreign colonies" in New Russia (Ukraine) in 1789. Generations of living as non-citizen settlers under special arrangements with the ruler had reinforced their separatist understanding of what it meant to live in nonconformity with the world." "Adolf Ens's volume traces the tensions of Mennonites becoming full citizens in the participatory democracy of Canada through the crucial steps of immigration, settlement and naturalization, implementing local municipal government, and becoming part of the public school system. This process was greatly complicated by the outbreak of the First World War and the intolerance it produced toward those who were pacifist, German, and different." "Almost 8,000 of

the descendants of this immigrant group left for Latin America in the aftermath of the war, becoming subjects once again. The rest gradually accommodated themselves to being full Canadian citizens."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved
