When the federal government uprooted and interned Japanese Canadians en masse in 1942, Kishizo Kimura saw his life upended along with tens of thousands of others. But his story is also unique: as a member of two controversial committees that oversaw the forced sale of the property of Japanese Canadians in Vancouver during the Second World War, Kimura participated in the dispossession of his own community. In *Witness to Loss* Kimura's previously unknown memoir - written in the last years of his life - is translated from Japanese to English and published for the first time. This remarkable document chronicles a history of racism in British Columbia, describes the activities of the committees on which Kimura served, and seeks to defend his actions. Diverse reflections of leading historians, sociologists, and a community activist and educator who lived through this history give context to the memoir, inviting readers to grapple with a rich and contentious past. More complex than just hero or villain, oppressor or victim, Kimura raises important questions about the meaning of resistance and collaboration and the constraints faced by an entire generation. Illuminating the difficult, even impossible, circumstances that confronted the victims of racist state action in the mid-twentieth century, *Witness to Loss* reminds us that the challenge of understanding is greater than that of judgment.

"During the 1870s, 7,000 Mennonites - descendants of Dutch and German Anabaptists - arrived in Canada to settle in the newly created province of Manitoba. While in Europe, they had steadily moved eastward under pressure of persecution and governmental restrictions until they settled in "foreign colonies" in New Russia (Ukraine) in 1789. Generations of living as non-citizen settlers under special arrangements with the ruler had reinforced their separatist understanding of what it meant to live in nonconformity with the world." "Adolf Ens's volume traces the tensions of Mennonites becoming full citizens in the participatory democracy of Canada through the crucial steps of immigration, settlement and naturalization, implementing local municipal government, and becoming part of the public school system. This process was greatly complicated by the outbreak of the First World War and the intolerance it produced toward those who were pacifist, German, and different." "Almost 8,000 of the descendants of this immigrant group left for Latin America in the aftermath of the war, becoming subjects once again. The rest gradually accommodated themselves to being full Canadian citizens."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

If you intend to visit Canada, study or work in Canada, immigrate to Canada, or become a Canadian citizen, you need to go through an application process. A typical application includes submitting some forms and documents to the immigration authorities. Some applications, however, mandate you to attend a phone or face to face interview with an immigration or border services

officer. Most of the immigration applications are time-consuming and nerve-racking. Several laws, policies, and procedures govern immigration applications. Many of them, such as inadmissibility rules, are complex or ambiguous. Even when you submit a simple eTA application, you need to answer questions about these complex aspects of immigration. Under the terms of the Chinese Immigration Act of 1885, Canada implemented a vast protocol for acquiring detailed personal information about Chinese migrants. Among the bewildering array of state documents used in this effort were CI 9s: issued from 1885 to 1953, they included date of birth, place of residence, occupation, identifying marks, known associates, and, significantly, identification photographs. The originals were transferred to microfilm and destroyed in 1963; more than 41,000 grainy reproductions of CI 9s remain. Lily Cho explores how the CI 9s functioned as a form of surveillance and a process of mass capture that produced non-citizens, revealing the surprising dynamism of non-citizenship constantly regulated and monitored, made and remade, by an anxious state. The first mass use of identification photography in Canada, they make up the largest archive of images of Chinese migrants in the country, including people who stood no chance of being photographed otherwise. But CI 9s generated far more information than could be processed, and there is nothing straightforward about the knowledge that they purported to contain. Cho finds traces of alternate forms of kinship in the archive as well as evidence of the ways that families were separated. In attending to the particularities of these images and documents, *Mass Capture* uncovers the alternative story that lies in the refusals and resistances enacted by the mass captured. Illustrated with painstakingly reconstituted digital reproductions of the microfilm record, *Mass Capture* reclaims the CI 9s as more than documents of racist repression, suggesting the possibilities for beauty and dignity in the archive, for captivity as well as capture.

Shivya Nath quit her corporate job at age twenty-three to travel the world. She gave up her home and the need for a permanent address, sold most of her possessions and embarked on a nomadic journey that has taken her everywhere from remote Himalayan villages to the Amazon rainforests of Ecuador. Along the way, she lived with an indigenous Mayan community in Guatemala, hiked alone in the Ecuadorian Andes, got mugged in Costa Rica, swam across the border from Costa Rica to Panama, slept under a meteor shower in the cracked salt desert of Gujarat and learnt to conquer her deepest fears. With its vivid descriptions, cinematic landscapes, moving encounters and uplifting adventures, *The Shooting Star* is a travel memoir that maps not just the world but the human spirit.

Immigration policy is a subject of intense political and public debate. In this second edition of the widely recognized and authoritative work *The Making of the Mosaic*, Ninette Kelley and Michael Trebilcock have thoroughly revised and updated their examination of the ideas, interests, institutions, and rhetoric that have shaped Canada's immigration history. Beginning their study in the pre-Confederation period, the authors interpret major episodes in the evolution of Canadian immigration policy, including the massive deportations of the First World War and Depression eras as well as the Japanese-Canadian internment camps during World War Two. New chapters provide perspective on immigration in a post-9/11 world, where security concerns and a demand for temporary foreign workers play a defining role in immigration policy reform. A comprehensive and important work, *The Making of the Mosaic* clarifies the attitudes underlying each phase and juncture of immigration history, providing vital perspective on the central issues of immigration policy that continue to confront us today.

Offering a critical perspective, *Media Literacy for Citizenship* emphasizes the ability to analyze media messages as a fundamental component of engaged citizenship. The ten chapters of this text are divided into two sections: the first six chapters explore the landscape of the media today, and each of the final four chapters examines how the media presents specific issues, all of which are of vital importance to civil society. Each chapter forms a mini-lesson and encompasses three core elements: an essay on a subject area important to critical media literacy; a list of case examples that can be used for assignments; and a list of key terms common to all chapters and cases. The diverse topics of study and the rich pedagogy make this book a perfect resource for courses in communications, journalism, media studies, and education.

In Christen und Sethianer. Ein Beitrag zur Diskussion um den religionsgeschichtlichen und den kirchengeschichtlichen Begriff der Gnosis versucht Herbert Schmid zu zeigen, dass es vermutlich keine Vorform der Gnosis an den Rändern des antiken Judentums gegeben hat. Sowohl Schenkes Sethianismus, als auch der Valentinianismus und andere frühe Ausprägungen der Gnosis sind vermutlich als frühe Versuche christlicher Theologie zu begreifen. In diesem Zusammenhang erweist sich der Begriff Gnosis als eine durchaus brauchbare Kategorie, um antike Religionsgeschichte zu beschreiben. In Christen und Sethianer. Ein Beitrag zur Diskussion um den religionsgeschichtlichen und den kirchengeschichtlichen Begriff der Gnosis, Herbert Schmid argues that there are no hints for a more primitive and independent form of Gnosticism which developed on the fringes of ancient Judaism. Not only the Valentinian school, but also Hans-Martin Schenkes Sethianism and other early manifestations of Gnosis are probably best understood as early attempts to phrase Christian theology. In this context, the term Gnosticism is a useful category to describe ancient religious history.

A beautiful re-issued edition of poetry from the Scotiabank Giller Prize-winning author of How To Pronounce Knife FEATURING A NEW INTRODUCTION BY THE AUTHOR The language of Small Arguments is simple, yet there is nothing simple in its ideas. Reminiscent of Pablo Neruda's Elemental Odes, these poems explore the structures of argument, orchestrating material around repetition, variation, and contrast. Thammavongsa's approach is like that of a scientist or philosopher, delicately probing material for meaning and understanding. The poet collects small lives and argues for a larger belonging: a grain of dirt, a crushed cockroach, the eyes of a dead dragonfly. It is a work that suggests we can create with what we know and with that alone. First published in 2003, Small Arguments announced the arrival of a distinct and utterly original new voice.
