Too bad fate, which has never been kind to Jeff, has something else in mind. Jeff's life had fallen completely apart before that long-ago day, and it isn't much better now. Jeff has toughened up, become self-reliant, been the funny guy his friends turn to, the one who gives advice and comfort when

needed. But every phantom from Jeff's past is about to come out to haunt him, and the family Jeff has staked his future on isn't in such great shape either. Collin is more than a starry-eyed kid, and it's a good thing, because Jeff's going to need all the help he can get. No one knows better than Jeff that life can be too short to turn your back on honest love, and that living happily is the best promise of all.

 2022 "[Nevada] is defiant, terse,
 not quite cynical, sometimes flip,
 addressed to people who think
 they know. It is, if you like, punk
 rock." —The New Yorker

"Nevada is a book that changed my life: it shaped both my worldview and personhood, making me the writer I am. And it did so by the oldest of methods, by telling a wise, hilarious, and gripping story." —Torrey Peters, author of *Detransition, Baby* A beloved and blistering cult classic and finalist for the Lambda Literary Award for Transgender Fiction finally back in print, *Nevada* follows a disaffected trans woman as she embarks on a cross-country road trip. Maria Griffiths is almost thirty and works at a used bookstore in New York City while trying to stay true to her punk values. She's in love with her bike but not with her girlfriend, Steph. She takes random pills and drinks more than is good for her, but doesn't inject anything except, when she remembers, estrogen, because she's trans. Everything is mostly fine until Maria and Steph break up, sending Maria into a tailspin, and then onto a cross-country trek in the car she steals from Steph. She ends up in the backwater town of Star City, Nevada, where she meets James, who is probably but not certainly trans, and who reminds Maria of her younger self. As Maria finds herself in the awkward position of trans role model, she realizes that she could become James's savior—or his downfall. One of the most beloved cult novels of our time and a landmark of trans literature, Imogen Binnie's *Nevada* is a blistering, heartfelt, and evergreen coming-of-age story, and a punk-smeared excavation of marginalized life under capitalism. Guided by an instantly memorable, terminally self-aware

protagonist—and back in print featuring a new afterword by the author—*Nevada* is the great American road novel flipped on its head for a new generation. *Nevada* Dreamspun Desires From a co-founder of Pixar Animation Studios—the Academy Award – winning studio behind *Coco*, *Inside Out*, and *Toy Story*—comes an incisive book about creativity in business and leadership for readers of Daniel Pink, Tom Peters, and Chip and Dan Heath. **NEW YORK TIMES BESTSELLER | NAMED ONE OF THE BEST BOOKS OF THE YEAR BY** The Huffington Post • Financial Times • Success • Inc. • Library Journal Creativity, Inc. is a manual for anyone who strives for originality and the first-ever, all-access trip into the nerve center of Pixar Animation—into the meetings, postmortems, and “Braintrust” sessions where some of the most successful films in history are made. It is, at heart, a book about creativity—but it is also, as Pixar co-founder and president Ed Catmull writes, “an expression of the ideas that I believe make the best in us possible.” For nearly twenty years, Pixar has dominated the world of animation, producing such beloved films as the *Toy Story* trilogy, *Monsters, Inc.*, *Finding Nemo*, *The Incredibles*, *Up*, *WALL-E*, and *Inside Out*, which have gone on to set box-office records and garner thirty Academy Awards. The joyousness of the storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, in this book,

Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student at the University of Utah, where many computer science pioneers got their start, and then forged a partnership with George Lucas that led, indirectly, to his co-founding Pixar in 1986. Nine years later, *Toy Story* was released, changing animation forever. The essential ingredient in that movie's success—and in the thirteen movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on leadership and management philosophies that protect the creative process and defy convention, such as: • Give a good idea to a mediocre team, and they will screw it up. But give a mediocre idea to a great team, and they will either fix it or come up with something better. • If you don't strive to uncover what is unseen and understand its nature, you will be ill prepared to lead. • It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them. • The cost of preventing errors is often far greater than the cost of fixing them. • A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody. **I Didn't Come Here to Make Friends** Dreamspinner Press A mind-bending, genre-

twisting debut novel *In West Akron*, Ohio, there lived a reclusive elderly man who always wore mittens, even in July. He had no friends and no family; all over town, he was known as the Man from Primrose Lane. And on a summer day, someone murdered him. Fast-forward four years. David Neff, the bestselling author of a true-crime book about an Ohio serial killer, is a broken man after his wife's inexplicable suicide. When an unexpected visit from an old friend introduces him to the strange mystery of "the man with a thousand mittens," David decides to investigate. What he finds draws him back into a world he thought he had left behind forever. And the closer David gets to uncovering the true identity of the Man from Primrose Lane, the more he begins to understand the dangerous power of his own obsessions and how they may be connected to the deaths of both the old hermit and his beloved wife. Deviously plotted and full of dark wit, James Renner's *The Man from Primrose Lane* is an audacious debut that boasts as many twists as a roller coaster. But beneath its turns, it's a spellbinding story about our obsessions: the dangerous

sway they have over us and the fates of those we love.

"You May Want to Marry My Husband."

"[Rosenthal] shines her generous light of humanity on the seemingly humdrum moments of life and shows how delightfully precious they actually are." —The Chicago Sun-Times How do you conjure a life? Give the truest account of what you saw, felt, learned, loved, strived for? For Amy Krouse Rosenthal, the surprising answer came in the form of an encyclopedia. In *Encyclopedia of an Ordinary Life* she has ingeniously adapted this centuries-old format for conveying knowledge into a poignant, wise, often funny, fully realized memoir. Using mostly short entries organized from A to Z, many of which are cross-

referenced, Rosenthal captures in wonderful and episodic detail the moments, observations, and emotions that comprise a contemporary life. Start anywhere—preferably at the beginning—and see how one young woman's alphabetized existence can open up and define the world in new and unexpected ways. An ordinary life, perhaps, but an extraordinary book.
