This voluminous work on Church History by Philip Schaff (1819-1893) was originally published between 1858 and 1893 in eight volumes in the USA and covers the period from the beginnings of Biblical Christianity in A.D. 1 to the History of the Reformation in Germany and Switzerland (1517-1648). Being still a popular text in North America, this work had been out of print for over a century and has now been carefully edited and reformatted for republication in three volumes, each of them containing the text of two volumes of the original edition. Schaff's work, unlike other works in the field, covers a multitude of church history-related aspects – from church doctrine, policy, events and processes to aspects of social moral and family life, arts and more. It is a very comprehensive text, extremely well-written and readable, rich in material and sources used, and attests to the excellence of protestant German theological scholarship under the influence of emerging Historical-Critical Biblical Exegesis at his time. This third volume in this series covers the period from Gregory VII. to the eve of the Protestant Reformation (A.D. 1049-1517).

"Drawing upon new manuscript discoveries, the author shows how Burchard tried to create a new text that would address these problems. He carefully selected and compiled canons from earlier collections and then went on to tamper systematically with the texts he had chosen. By doing so, he created a book of church law that appeared to be based on indisputable authority, that was internally consistent and that was easy to apply through logical extrapolation to new cases. The present study thus provides a window into the development of legal and theological reasoning in the medieval West, and suggests that, thanks to the work of ambitious bishops, the flowering of law and theology began far earlier, and for different reasons, than scholars have heretofore supposed."--BOOK JACKET.
