Cyclopadia Bibliographica: A Library Manual Of Theological And General Literature, and guide to books for Autors,preachers, students,and literary men. University of Hawaii Press This voluminous work on Church History by Philip Schaff (1819-1893) was originally published between 1858 and 1893 in eight volumes in the USA and covers the

period from the beginnings of Biblical Christianity in A.D. 1 to the History of the Reformation in Germany and Switzerland (1517-1648). Being still a popular text in North America, this work had been out of print for over a century and has now been carefully edited and reformatted for republication in three volumes, each of them containing the text of two volumes of the original edition. Schaff's work, unlike other works in the field, covers a multitude of church history-related aspects – from church doctrine, policy, events and processes to aspects of social moral and family life, arts and more. It is a very comprehensive text, extremely well-

written and readable, rich in material and sources used, and attests to the excellence of protestant German theological scholarship under the influence of emerging Historical-Critical Biblical Exegesis at his time. This third volume in this series covers the period from Gregory VII. to the eve of the Protestant Reformation (A.D. 1049-1517).

In its role as a scriptural charter, vinaya has justified widely dissimilar approaches to religious life as Buddhist orders in different times and places have interpreted it in contradictory ways. In the

resulting tension between scripture and practice, certain kinds of ceremonial issues (such as those involving lineage, seniority, initiation, purification, repentance, visualization, vows, ordination) acquire profound social, psychological, doctrinal, and soteriological significance in Buddhism. Going Forth focuses on these issues over a wide sweep of history—from early fifth-century China to modern Japan—to provide readers with a rich overview of the intersection of doctrinal, ritual, and institutional concerns in the development of East Asian Buddhist practices. Despite the crucial importance of vinaya, especially for understanding Buddhism in East Asia, very little scholarship in Western languages exists on this fascinating topic. The essays presented here, written by senior scholars in the field, go beyond the timeworn method of relying on prescriptive accounts in the scriptures to describe what imaginary Buddhists must have done (or do). Rather, they address how actual people responded to local social and cultural imperatives by reading scripture in innovative ways to give new life to tradition. They place real people, practices, and institutions at the center of each account, revealing both diversity and unity, continuity and transformation, in Buddhist customs. The result is a well-integrated, accessible work—relevant for
