The Accidental

Millionaire is the memoir of Gary Fong, would-be slacker who revolutionized wedding photography, inventor of popular photography aids, entrepreneur, contrarian, bon vivant and a man who really, really didn't want to become a doctor. A first-generation Chinese-American, Gary was raised in one of Los Angeles' least-desirable neighborhoods and was forced to deal—in his own quirky and often very funny way—with the burdens of poverty, crime and his parents' relentless aspirations. These

issues almost overwhelmed him until he had a dramatic epiphany. Spotting a bumper sticker that read "Since I gave up hope, I feel much better," Gary promptly did just that. He stopped trying and started succeeding. At turns hilarious, insightful and instructive, *The Accidental Millionaire* is Horatio Alger-meets-David Sedaris. Turning the traditional self-help principles upside down, *The Accidental Millionaire* disdains the goal-oriented approaches of traditional self-help philosophies. Sometimes not

Contemporary Esthetic Dentistry Tony Northrup With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in

Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of

Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.
