Canon EOS Digital Photography Photo Workshop Stackpole Books

In 'Getting Started in Photography,' Photographer and writer Shawn

M. Tomlinson creates a quick guide to help budding photographers.

The book includes equipment advice, exercises for becoming better,

photo processing basics and more. From the book: "What anyone

starting out needs is, well, a starting point. Some basic information

about equipment and technique to get everything moving. And, hey,

I'm here to help." In part two, 'Great Starter DSLR: Revisiting the

Sony A100,' he takes an in-depth look at the camera and continues his

series devoted to helping budding photographers get started without

breaking the bank. In this case, Tomlinson considers the first Sony

DSLR, the A100. From the book: "After waiting the proper mourning

time for Minolta - about a year - Sony took the black armband off and

unveiled its first DSLR, the A100. And why is this important now? It's

vitaly important if you are a beginning photographer and want to get a

great DSLR and great lenses that won't mortgage your house."

HWM John Wiley & Sons

Long-time columnist and lifelong photographer Shawn M.

Tomlinson writes about the art and technique of photography

with wit and humor. He focuses in his Photo Curmudgeon

columns on getting started in as well as moving into advanced

photography. Instead of concentrating upon the newest, shiniest

photographic equipment, Tomlinson works with all levels of older

equipment, makes recommendations and recounts his own

"Voyages of Photography." He helps the novice get started with

higher end, older cameras and lenses, and helps with photo

editing suggestions and techniques.
