tweak the 30D to give color almost as vivid as I can

get. The 30D has a much wider range of saturation

adjustment than most other cameras, so halfway up

on a 30D is the same as all the way up on a 20D, D80

or D200. I leave everything at normal, and set the

saturation to +2, +3, or, if I'm sitting down, +4. +4 is

pretty wild. Try them for yourself.
