YouTube and vlog-

making are blowing

up right now, and

Canon 60D has hands

down become the best

choice for this

purpose. The main

reason for its

popularity is the

incorporation of the

continuous auto-focus

feature, which is

missing in other

DSLR cameras.

However, you have to

value the piece that

attaches to the end of  
the camera – the lens.

*ManualsLib*

The Canon EOS 60D digital camera has a variety of

exposure modes that cover all types of photography situations. Select a mode by using the Mode dial on the top-left side of the camera (and remember to push in the button in the center of the dial while you turn it). Some modes give you a lot of control over the camera, and some take it away.
