CANON POWERSHOT G10 USER MANUAL Pdf Download.

I would definitely use ISO 80. Use the self timer as to not move the camera on its tripod when taking the shots.

Everyone says the G10 lens is best wide open, I would tend to agree with that, however, it never hurts to take a sequence of picture with different aperture settings, and then see which ones you like best.

Camera User Guide - gdlp01.c-wss.com

Since there has never been a Shade setting on Canon compacts, I use the manual setting instead, and once I find a setting I like, I don't like to change it. I also have gotten good luck by using the fish WB ("underwater") setting in shade. The G10 makes great images in good light, or with a tripod at night, so long as you shoot at ISO 80.

The G10 is the third incarnation of Canon ' s flagship ' prosumer ' compact since the G series was reinvented with the G7 in 2006. Announced two years after the G6, the G7 caused quite a buzz; partly because everyone had presumed the budget SLR had killed off this sector of the market, partly because it lacked several of what had become G series trademarks (fast lens, tilting screen, raw ...
