The U.S.S. Enterprise is without doubt the most  
famous starship in history. The vessels that have  
carried the name have saved the galaxy countless  
times and her captains, including Archer, Kirk,  
and Picard, have been legendary. This Haynes  
Manual provides in-depth information about these  
extraordinary ships, from the Enterprise NX-01, to  
Captain Kirk's Enterprise NCC-1701 and Captain  
Picard's Enterprise NCC-1701-D including histories  
of each vessel, technical information about their  
systems, and discussions of key technologies such  
as transporters and warp-speed travel. Find out  
exactly what powered these ships, how they were

armed and what it took to operate them. The book  
features newly created artwork throughout,  
including full-ship cutaways of each Enterprise,  
key systems, and interior locations together with  
detailed new exterior views by one of Star Trek's  
original visual effects artists. This Haynes

Training Circular (TC) 3-09.81, "Field Artillery  
Manual Cannon Gunnery," sets forth the doctrine  
pertaining to the employment of artillery fires.  
It explains all aspects of the manual cannon  
gunnery problem and presents a practical  
application of the science of ballistics. It  
includes step-by-step instructions for manually  
solving the gunnery problem which can be applied  
within the framework of decisive action or unified  
land operations. It is applicable to any Army  
personnel at the battalion or battery responsible  
to delivered field artillery fires. The principal  
audience for ATP 3-09.42 is all members of the  
Profession of Arms. This includes field artillery  
Soldiers and combined arms chain of command field  
and company grade officers, middle-grade and  
senior noncommissioned officers (NCO), and  
battalion and squadron command groups and staffs.  
This manual also provides guidance for division  
and corps leaders and staffs in training for and  
employment of the BCT in decisive action. This  
publication may also be used by other Army  
organizations to assist in their planning for  
support of battalions. This manual builds on the  
collective knowledge and experience gained through  
recent operations, numerous exercises, and the  
deliberate process of informed reasoning. It is  
rooted in time-tested principles and fundamentals,  
while accommodating new technologies and diverse  
threats to national security.
