Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs

Liverpool and Manchester Photographic Journal

Sechs Jahre nach Erscheinen des "Kompodiums" liegt mit der 3. Auflage ein gestalterisch und inhaltlich "general überholtes" Buch vor. Die Verwendung einer zeitgemäßen Schrift sowie die zweispaltige Anordnung der Texte gewährleisten eine Verbesserung der

Lesbarkeit und Leseführung. Eine Kennfarbe pro Kapitel und farbige Register am Seitenrand erleichtern das Auffinden einer gesuchten Textstelle. Screenshots, Grafiken und Abbildungen wurden aktualisiert. Neben der gestalterischen Modernisierung wurden neue Trends der Medienbranche wie die wachsende Bedeutung des Digitaldrucks, die Novellierung des Medienrechts oder die Anforderungen an barrierefreies Web-Design berücksichtigt. Der Anteil an Printmedien wurde erhöht, um der Tatsache Rechnung zu tragen, dass die Bedeutung der Digitalmedien in der Industrie derzeit rückläufig ist. Dieses Standardwerk zur Mediengestaltung enthält zu jedem Kapitel Übungsaufgaben und Lösungen, wodurch es seinem Anspruch noch besser gerecht wird, ein Lehr- und Arbeitsbuch zu sein.
