Jarvis Langton is an unborn-again Christian living on the fringe. He's not big on life and has tried to finish his own twice. Still, most mornings, he quite likes to sun himself at Sydney's Royal Botanic Gardens. One morning he notices something winking at him from a nearby bush. When he investigates he finds the dead body of his friend, Lady; a Thai transvestite. Jarvis is not someone with his thoughts lined up in any reasonable order. It takes him a while to work out Lady must have been murdered. It takes him longer to decide he's going to find her killer - but once he does, the premonition that finding Lady's murderer will bring him his own end, happens in an instant. Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet

Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Speed Reading I used to love analyzing, however ever since internet, laptops, tablets,

and smartphones have become famous, reading material has increased manifold and time for reading has been reduced a great deal. Once I talked about this problem with my buddies, I came to understand that they have essentially the same problems with reading. I cannot ask you to replace good old, traditional, ordinary studying with speed reading. Not anything can replace reading word by word and absorbing the meaning of every word and every line. Latest research also backs this idea. Pace reading can come at a cost of comprehension if you aren't careful. Speed reading can, but, sincerely help if you are already greatly familiar with the topic that you are reading about. Speed reading can come on your rescue when you have to consult a lot of work for a single project or task, mainly when you are already familiar with the major principles but want to widen your expertise base concerning the subject. I want to stress the fact that there is no replacement for traditional book reading. Speed reading can, however, come in handy when you have to complete a lot of reading in a short amount of time. So keep that in mind while you are reading this book. pick up your copy today by clicking the BUY NOW button at the top of this page!

Jesus told Pontius Pilate: "My kingdom is not of this world." John 18:36. God has a spiritual Zion that is in a heavenly Jerusalem. Hebrews 12:22; Revelation 21:10. Jesus Christ is the chief corner stone laid by God in Zion. 1 Peter 2:6. Those who believe in Jesus Christ are living stones in the spiritual house of God. 1 Peter 2:5; Ephesians 2:20-22. Believers are in Jesus and Jesus is in believers. John 14:20; 17:20-23. All who are elected by God to believe in Jesus Christ are part of the heavenly Zion, without regard to whether they are Jews or Gentiles. Romans 10:12. Satan is a great adversary of God, who has created his own

mystery religions. During the Babylonian captivity (2 Chronicles 36:20), an occult society of Jews replaced God's commands with Satan's Babylonian dogma. Their new religion became Judaism. Jesus explained the corruption of the Judaic religion: "Howbeit in vain do they worship me, teaching for doctrines the commandments of men." Mark 7:7. Jesus revealed the Satanic origin of Judaism when he stated: "Ye are of your father the devil, and the lusts of your father ye will do." John 8:44. Babylonian Judaism remains the religion of the Jews today. Satan has infected many nominal "Christian" denominations with his Babylonian occultism, which has given rise to "Christian" Zionism. "Christian" Zionism advocates a counterfeit, earthly Zion, within which fleshly Jews take primacy over the spiritual church of Jesus Christ. This book exposes "Christian" Zionism as a false gospel and subversive political movement that sustains Israel's war against God and man.

India's irrigated agriculture sector has been basic to India's economic development and poverty alleviation. One of India's major achievements is its rapid expansion of irrigation and drainage infrastructure. However, the major emphasis on development has been achieved at a cost. The importance put on new construction has diverted attention away from the need to ensure the quality, productivity, and sustainability of the services. Further, a governmental subsidy based approach has been used and this has resulted in irrigation and drainage services which, while enabling significantly higher productivity than from non-irrigated lands, are well below their potential. 'The Irrigation Sector' discusses directions for future growth, the framework for reform, and the reform agenda.

SQLite is a self-contained SQL database engine that is used on every smartphone (including all iOS and Android devices) and most computers (including all Macs and Windows 10 machines). Each computer or phone using SQLite

often has hundreds of SQLite databases and it is estimated that there are over one trillion SQLite databases in active use. Given the above, the importance of examining all of the data held in these databases in an investigation is paramount, and of course this includes examining deleted data whenever possible. In this book we cover the format of the SQLite database, and associated journal and Write-Ahead Logs (WAL) in great detail. We show how records are encoded, how to decode them manually and how to decode records that are partially overwritten. We also describe how the workings of SQLite, and in particular the journal and WAL, can be used to ascertain what has happened in a manner that cannot be determined from the data alone. We cover basic SQL queries and how they can be used to create a custom report that includes data from different tables, and we show how we can use SQL queries to test hypotheses about the relationships of data in different tables. This book is aimed mainly at forensic practitioners, and it is assumed that the reader has some basic knowledge of computer forensics; it will also be of interest to computer professionals in general particularly those who have an interest in the SQLite file format.
