The Future Church of Scotland: an Essay in Favour of a National Presbyterian Church, on the Basis of Toleration, Economy, and Utility: Addressed to the Lay Presbyterians of Scotland ... By "Free Lance." Royal Historical Society

First published in 1975. Using estate records, local newspapers and parliamentary papers, this book focuses upon two central and interrelated subjects – the rural economy and the land question – from the perspective of Cork, Ireland's southernmost country. The author examines the chief responses of Cork landlords, tenant farmers and labourers to the enormous difficulties besetting them after 1815. He shows how the great famine of the late 1840s was in many ways an economic and social watershed because it rapidly accelerated certain previous trends and reversed the direction of others. He also rejects the conventional view of the land war of the 1880s, arguing that in Cork it was essentially a 'revolution of rising expectations', in which tenant farmers struggled to preserve their substantial material gains since 1850 by using the weapons of 'agrarian trade unionism', civil disobedience and unprecedented violence. This title will be of interest to students of rural history and historical geography.

Your journey to self-discovery and self-healing begins here.

Incomplete Maps is an invitation to us travelers to explore where we are in the journey of life and understand why we are there.

Some of us may have travel companions, while some of us may be traveling by ourselves. The book is divided into five sections - The Explorer, The Guide, The Pilgrim, The Pioneer, and The Settler.

The intriguing illustrations and use of dialogues emphasize the childlike curiosity we once used to view the world with before we quickly grew up, and stopped asking questions. This self-published book is the debut collection of poetry and illustrations by Judy R.

Sebastian. The author aims to help each reader rekindle the joys of self-discovery, self-forgiveness, self-healing, and self-love. In her words, " Welcome this book like you would a phone call from an old friend. "

Uncover fascinating, little-known histories of the five boroughs in The Bowery Boys ' official companion to their popular, award-winning podcast. It was 2007. Sitting at a kitchen table and speaking into an old karaoke microphone, Greg Young and Tom Meyers recorded their first podcast. They weren ' t history professors or voice actors. They were just two guys living in the Bowery and possessing an unquenchable thirst for the fascinating stories from New York City ' s past. Nearly 200 episodes later, The Bowery Boys podcast is a phenomenon, thrilling audiences each month with one amazing story after the next. Now, in their first-ever book, the duo gives you an exclusive personal tour through New York ' s old cobblestone streets and gas-lit back alleyways. In their uniquely approachable style, the authors bring to life everything from makeshift forts of the early Dutch years to the opulent mansions of The Gilded Age. They weave tales that will reshape your view of famous sites like Times Square, Grand Central Terminal, and the High Line. Then they go even further to reveal notorious dens of vice, scandalous Jazz Age crime scenes, and park statues with strange pasts. Praise for The Bowery Boys " Among the best city-centric series. " —New York Times " Meyers and Young have become unofficial ambassadors of New York history. " —NPR " Breezy and informative, crowded with the finest grifters, knickerbockers, spiritualists, and city builders to stalk these streets since back when New Amsterdam was just some farms. " —Village Voice " Young and Meyers have an all-consuming curiosity to work out what happened in their city in years past, including the Newsboys Strike of 1899, the history of the Staten Island Ferry, and the real-life sites on which Martin Scorsese ' s Vinyl is based.
