Adopting a child is a magical thing! My parents always made me feel special to be adopted. This story describes a couple's yearning for a child and then their excitement when they learn that there is a special baby just for them! It is told in the same way that my parents shared my adoption story with me every night. Simple. Honest. Special. Loved. Adoption doesn't make you weird; it makes you wonderful. Waiting for

something you want is very hard to do, especially when the thing you desire most is a child. Sometimes God answers prayers with a "Not yet." This doesn't always mean no. The couple in this book prayed, waited, and then prayed some more! When it was the right time, God said yes. I hope this little story can help explain the beauty of adoption to children. I hope adoptive parents can identify with the couple in this book and that it might inspire their own special story for their family. I especially hope that when adoptive children hear this story, they will feel that they were the one thing that was missing in their parents' lives.

In the 1950s, '60s and '70s, security experts worried about the spread of nuclear weapons. Now, after decades of academic analysis, some argue that nuclear weapons in more hands may be better. During the 2016 presidential campaign, Donald Trump suggested the United States might be better off if Japan and South Korea got the bomb. All this raises the question: Should we let the bomb spread? The authors in this volume present a variety of views. Some favor letting America's allies get nuclear weapons; others say preventing proliferation is more dangerous than allowing it. Still others argue that nonproliferation is more essential to U.S. security than ever before. Table of Contents Introduction by Henry Sokolski Chapter 1: Getting Past
