Radiohead and the Resistant Concept Album Random House

How the British rock band Radiohead subverts the idea of the concept album in order to articulate themes of alienation and anti-capitalism is the focus of Marianne Tatom Letts's analysis of Kid A and Amnesiac. These experimental albums marked a departure from the band's standard guitar-driven base layered with complex production effects. Considering the albums in the context of the band's earlier releases, Letts explores the motivations behind this change. She places the two albums within the concept-album/progressive-rock tradition and shows how both resist that tradition. Unlike most critics of Radiohead, who focus on the band's lyrics, videos, sociological importance, or audience reception, Letts focuses on the music itself. She investigates Radiohead's ambivalence toward its own success, as manifested in the vanishing subject of Kid A on these two albums.

Through careful examination of Ted Aoki ' s life and work within its
historical, societal and intellectual context, this text advances a new
appreciation of the national distinctiveness of Canadian curriculum
studies. The book draws unique comparison between Aoki ' s
writings and Heidegger ' s concept of "being-in-the-world." In
exploring Aoki ' s narratives on momentous life events, the author
attends to the interwoven, dynamic and poetic essence of the
scholar ' s intellectual formation and identifies a critically reflective
style of theorizing. By contextualizing Aoki ' s narrations on his
momentous life events, the text engages with Aoki ' s critical
reflective and unique style of theorizing and foregrounds the
prominent influence of Heidegger ' s phenomenology and writings
on Aoki ' s thinking. A major contribution to understanding Aoki ' s
curriculum scholarship, this book is an important resource for
researchers and post-graduate students working across curriculum
studies discourse.
