The Photoshop Workbook reveals the creative skills that photographer and retoucher Glyn Dewis uses for his global clients. In this guide you will learn not only his step-by-step Photoshop techniques, but how and when to apply them so that you, too, can

take your images to a whole new level. Glyn starts by covering the individual Photoshop skills that are the essential building blocks of his process: mastering selections and cutouts; dodging and burning and using the “power of gray” for composites; applying lighting effects; creating special effects; and turning day into night using a nondestructive workflow. It's one thing to learn the techniques, but to master them you need to understand when to apply them and

in what order. In the second part of the book, Glyn brings everything together with his real-world projects. He covers six complete, start-to-finish projects—including all the images for you to download and follow along—that show you how to apply the techniques to a variety of scenarios. **Canon EOS 90D User Manual** Rocky Nook, Inc. **Learn to harness the full power of layers and selections in Photoshop—and let your creativity soar!**

Learning the basics of Photoshop is an admirable feat. Unfortunately, that's exactly where most people end their Photoshop journey: with a fundamental appreciation of the program and the ability to execute a few helpful techniques. But without a full understanding of and capability with layers and selections—arguably Photoshop's most powerful tools—you're leaving the vast majority of Photoshop's power and potential untapped.

The Photoshop Layers and Selections Workshop is here to change all that. In this book, photographer and bestselling author Glyn Dewis focuses on these two key features of Photoshop, knowing that if you can learn and master them, you'll have everything you need to maximize Photoshop's potential, bring out the best in your work, and harness your full creativity.

In this book, you will:

- Start off with a detailed

breakdown of the Photoshop Home screen and Workspace, including how to best set it up for your way of working.

- Grow your understanding of layers and learn how to maximize their potential in your selections workflow.

- Conquer selections and cutouts by

mastering the use of tools including Select and Mask, the Pen Tool, Channel Pulls, Vector Masks, Color Range, and more.

- Learn how to make and fake the best possible hair and fur selections.

- Work your way through three selections

workflows, combining tools and techniques to get the very best possible results.

- Learn some of Glyn's favorite Photoshop techniques in a bonus chapter.

Thorstein Veblen was an American economist and sociologist. He is well known as a witty critic of capitalism. Veblen is

famous for the idea of "conspicuous consumption." Conspicuous consumption, along with "conspicuous leisure," is performed to demonstrate wealth or mark social status. Veblen explains the concept in his best-known book, *The Theory of the Leisure Class*. Within the history of economic thought, Veblen is considered the leader of the institutional economics movement. Veblen's

distinction between "institutions" and "technology" is still called the Veblenian dichotomy by contemporary economists. In the beginning of his academic career Veblen had difficulties obtaining a university position, whether because he was discriminated for being Norwegian, or openly identified as an agnostic. These difficulties later inspired him to write *The Higher Learning in America*. In this book he

claimed that true academic values were sacrificed by universities in favor of their own self-interest and profitability. 0D_ *The Higher Learning in America* Delta No photographer works in a vacuum. Photographers, like all artists, stand on the shoulders of those who came before them, and they are informed and influenced by those working around them contemporaneously. If you are striving to find

your own style, one of the most powerful exercises you can practice is to find influence and inspiration in the work of those around you, and then emulate that work in an effort to define, shape, and grow your own photographic voice. By collecting, imitating, and eventually reshaping and combining the work of those around you, your unique voice can be found and the quality of your work can soar. In Photograph Like a Thief, a Thief, photographer, author, and retoucher Glyn Dewis embraces the idea of “stealing” and recreating others’ work in order to improve as an artist. By “stepping inside” others’ images, you can learn to reverse engineer their creation, then build an image yourself that simultaneously pays homage to that work yet is also an original creation itself. The book is divided into two parts. In Part 1, Photograph Like Glyn discusses his approach, covering the process of “stealing ideas” and finding inspiration. He also covers the gear he uses, as well as his retouching and post-processing workflow. In a very helpful chapter on “reverse engineering” a photograph, Glyn discusses how to “read” an image by the catchlights, shadow position, and the hardness /softness of the shadows. This is a crucial skill to acquire if you want to recreate

another's look. In Part 2, Glyn works through a series of images, from initial concept and influence to lighting, shooting, and post-processing the image to get to the final result. For each image, he reverse engineers the shot to describe how it was created and discusses how the image influenced him, then works through the gear he used, the lighting for the image, and the post-processing of the

image—from the RAW out-of-camera shot to the finished piece. While Glyn's work primarily focuses on portraiture, he finds inspiration and influence from a wide variety of work, from legendary photographers to animated films to book covers to movie posters. By working alongside Glyn in *Photograph Like a Thief*, you too can learn to find inspiration all around you, discover how that work can influence you, improve your

photographic and post-processing skill set, and begin your own journey to defining your unique style. Who knows? Soon, others may be stealing from you.
