Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews.

101 Bench Tips for Jewelers Pearson Education

Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail: a thing which has never been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing ...and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued, and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in the study of the mechanics of horology.

Composition Amherst Media, Inc

Iwo Spru ß gibt einen Überblick über die Interaktion eines Kraftfahrzeugs mit einer nassen Fahrbahn sowie der hieraus resultierenden Fahrzeugeigen- und -fremdverschmutzung. Er zeigt, dass ein Verstärkungsprozess notwendig ist, um neben den klassischen, aerodynamischen Optimierungsgroßen im Fahrzeugentwicklungsprozess durch Vermeidung der Fahrzeugverschmutzung einen Beitrag zur Sicherheit im Straßenverkehr zu leisten. Die Erkenntnisse aus den vorgestellten Untersuchungen an einem Grundkörper als auch an einer Vollfahrzeuggeometrie dienen dem Autor als Grundlage für die Weiterentwicklung und Validierung eines Werkzeugs zur numerischen Strömungssimulation. Somit ergibt sich die Möglichkeit, in einer früheren Phase des Fahrzeugentwicklungsprozesses bereits erste Aussagen über die Fahrzeugverschmutzung treffen zu können.

The New Stokes Field Guide to Birds: Eastern Region Cambridge University Press

Bryophytes were a pivotal step in land plant evolution, and their significance in the regulation of ecosystems and the conservation of biodiversity is becoming increasingly acknowledged.

This introductory textbook assumes no prior knowledge of bryophyte biology, making it ideal for advanced undergraduate and graduate students, as well as amateur botanists. The authors expertly summarise the diversity of bryophytes and outline recent advances in our understanding of their evolutionary history, their ecological roles and preferences, their

distribution patterns and conservation needs. The text is highly illustrated throughout, with boxed summaries of topics of current relevance in bryophyte biology, and a glossary of technical terms.

I Am Not a Wedding Photographer Silver Pixel Press

A local Singaporean magazine dedicated to photography and videography.

A new landmark in nature guides: the most authoritative, beautiful, and useful national pocket guide to birds. Pocket-size, brilliantly colorful, and easy to use, THE STOKES ESSENTIAL POCKET GUIDE TO THE BIRDS OF NORTH AMERICA contains everything you need to identify and enjoy birds in your backyard and beyond. Whether you're age 9 or 90, whether you're a novice or advanced birder, this book will help you identify birds quickly and accurately. It offers more than 580 stunning color photographs, coverage of more than 250 species, key identification clues, descriptions of songs and calls, notes on feeding and nesting behavior, advice on selecting bird feeders and binoculars, important behavioral information and key habitat preferences, and up-to-date range maps. The culmination of many years of research, observation, and study, this book is factually, visually, and organizationally superior to any other beginner's guide on the market.

In Camera: How to Get Perfect Pictures Straight Out of the Camera John Wiley & Sons

"Today Singapore ranks sixth in the world in healthcare outcomes well ahead of many developed countries, including the United States. The results are all the more significant as Singapore spends less on healthcare than any other high-income country, both as measured by fraction of the Gross Domestic Product spent on health and by costs per person. Singapore achieves these results at less than one-fourth the cost of healthcare in the United States and about half that of Western European countries. Government leaders, presidents and prime ministers, finance ministers and ministers of health, policymakers in congress and parliament, public health officials responsible for healthcare systems planning, finance and operations, as well as those working on healthcare issues in universities and think-tanks should know how this system works to achieve affordable excellence."--Publisher's website.

My Dad's Camera Myprint

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs The Stokes Field Guide to the Birds of North America Peachpit Press

Provides information on equipment, setting up a darkroom, developing negatives, making proof sheets and enlargements, and special techniques for fine prints
