As cool as classic muscle cars might be, they're only as good as the automotive technology of their era. That's where this book comes in. With clear, easy-to-follow instructions, this guide shows how to give your car all the muscle of today while preserving the classic styling of your muscle car. In this updated and fully illustrated edition of his popular handbook, veteran overhauler and automotive writer Jason Scott takes readers through the step-by-step improvements that will add more power, style, and handling capability to any classic muscle car. Full-color photos accompany Scott's detailed instructions, covering bodywork and interior restoration, engine enhancements, transmission and axle swaps, suspension, steering, chassis and brake upgrades as well as many other changes that will restore-or maintain-a muscle cars identity while making it perform as if it were built only yesterday.

In his latest book of photography Benjamin Hargreaves brings us a celebration of travel with images taken during his journeys through

the United Kingdom, Europe, India, Australia, the USA, Cuba and elsewhere. The book uses images of roads, tracks and waterways to evoke both a literal journey and a metaphorical sense of life as a journey. On a Road, On a Journey transports readers through 45 photographs to other worlds such as by a red road in Australia, on a ferry in Bohemia, crossing the Splugen Pass into Italy on foot or on a rough track in Ladakh. The book highlights how images of roads have meaning for us and how this is part of the attraction of such images. Within the book, Benjamin also includes an introduction highlighting the importance of roads and journeys in mythology, poetry, song and literature. He explores how these ideas have become important symbols in the way we think. Readers may just want to go travelling, and feast their eyes, or they may be prompted to think about life's journey.

The Official eBay Bible, Third Edition

Cars in the Landscape is a celebration of the beauty of cars with an underlying theme of reclaiming the motor car for beauty, amusement, idiosyncrasy, whim and joy – for a view other than just utility and efficiency. The book contains 38 photographs, at times with both whimsy and deeper thought, intended for contemplation and the pleasure of looking. There are also layers of association and suggestion. An introductory essay considers how much more the motor car is than its mere material self – as a driving force in twentieth century western development, as a work of art, as a joy to drive, as a symbol, as an enabler and even in relation to spiritual understanding. The cars are above all in use, or have been, because they are more meaningful and interesting than in studio conditions or in museums. This book is in part a plea to slow down and pay more attention to our surroundings, a natural role for photography to play. These photographs are primarily a paean of praise,

sometimes with wit, for the beauty of the motor car in the landscape. Cars in the Landscape is for both those who love cars and those who appreciate beautiful photographs. You may just want to buy an old car and start travelling around Europe...
