There is wide consensus on the importance of knowledge for economic growth and local development patterns. This book proposes a view of knowledge as a collective, systemic and evolutionary

process that enables agents and social systems to overcome the challenges of the limits to growth. It brings together new conceptual and empirical contributions, analysing the relationship between demand and supply factors and the rate and direction of technological change. It also examines the different elements that compose innovation systems. The Economics of Knowledge, Innovation and Systemic Technology Policy provides the background for the development of an integrated framework for the analysis of systemic policy instruments and their mutual interaction the socio-political and economic conditions of the surrounding environment. These aspects have long been neglected in innovation policy, as policymakers, academics and the business community, have mostly emphasized the benefits of supply side strategies. However, a better understanding of innovation policies grafted on a complexity-based approach calls for the appreciation of the mutual interactions between both supply and demand aspects, and it is likely to improve the actual design of policy measures. This book will help readers to understand the foundations and

working of demand-driven innovation policies by stressing the importance of competent and smart demand.

Meeting a friend after many years' separation, the narrator wonders whether the events they both lived through in Lebanon really took place. Time and distance give a sense of unreality but when the narrator and Ali meet at Heathrow Airport, after seventeen years, the past slowly begins to unfold. Like so many other Palestinians who were born in the Lebanon, they had to leave in the mid-1980s, when it became a battlefield for different militias and armies – Lebanese, Palestinian, Israeli and Syrian. Ali leaves for America and, two years later, the narrator leaves for London. Their memories are concentrated on one fatal night when they and two other friends are together for the last time, before tragedy strikes. But for the narrator, a personal tragedy had struck much earlier, one which he would never forget and could not share.
