Canon Powershot G10/G11 Nelson Education
In September of 2014, technology giant Canon U.S.A. Inc. announced to the public the release of three new cameras to the Powershot line. Among those announced launch is the Powershot SX60 HS digital camera. The thrust behind the launch of this model, according to the Tech-giant, is the need to continually meet the demand for high quality imaging tools and products.

Reviews to date have lauded the company for meeting these demands; purporting that the SX60 HS camera is packed with features to guarantee an optimized photo experience for both professional and amateur users. Among the features of the new Powershot SX60 HS camera is the sixteen (16) megapixel 1/2.3 inch BSI-CMOS sensor, Optical Image Stabilizer, fully articulated three (3) inch LCD monitor, Electronic Viewfinder with 100% coverage available, external and built-in flash, a Self-timer feature and continuous drive of approximately 6.4 frames per second.

Canon PowerShot Digital Field Guide
Amphoto Books

This book, a complete guide to the operation and features of the Canon PowerShot S95, is a follow-up to the author's earlier guides to advanced compact digital cameras, including the Leica D-Lux 4 and D-Lux 5, and the Panasonic Lumix LX3 and LX5. The new book, like the earlier ones, explains all operations, features, menus, and controls of the camera in clear language, providing guidance not only about how to accomplish things with the camera, but when and why to use certain features. The book does not assume any specialized knowledge

by the reader, but adopts a patient and helpful tone in explaining topics such as autofocus, manual focus, depth of field, aperture priority, shutter priority, HDR (High Dynamic Range) photography, and RAW files. The book's more than 170 color photographs provide illustrations of the camera's controls and menus, and also include examples of the various types of photographs that can be taken using the many creative settings of the camera, including the My Colors settings, which let the photographer alter the color processing of images; the Scene mode, with settings that are optimized for various subjects, including landscapes, portraits, and underwater shots; and special features

such as the Smart Shutter and Miniature Effect options. In addition, the book goes beyond the realm of everyday photography, and provides introductions to more advanced topics such as infrared photography, street photography, macro photography and creating 3D (three-dimensional) images that can be viewed with conventional red and blue 3D glasses.

The book also includes a full discussion of the video recording abilities of the PowerShot S95, which can record high-definition (HD) video with stereo sound. In three appendices, the book provides information about accessories available for the camera, sets forth a list of useful web sites and other resources for further information, and

includes a section with helpful "quick tips" that give particular insights into how to take advantage of the camera's advanced features in the most efficient ways possible. The book includes a detailed Table of Contents and a full Index, so the reader can quickly find needed information about any particular feature or aspect of the camera.

David Busch's Canon Powershot G16 Guide to Digital Photography White Knight Press

In February of 2015, one of the major digital firms; Canon U.S.A. Inc. announces the release of yet another of its compact and lightweight digital cameras. The new camera, the PowerShot EPH 350 HS, which

became available to public in April of that year has received tremendous reviews on its quality and enhanced features. Among the more popular features of the new PowerShot ELPH 350 HS is the 20.2-megapixel High-Sensitivity CMOS sensor, built-in NFC and Wi-Fi capabilities, the DIGIC 4+ Image Processor, the new CANON HS System, 12x Optical Zoom along with the new Intelligent IS that results in the creation of blur free and crisp still shots. Users will also be able to enjoy features such as Auto Zoom, ISO Sensitivity ranging from 80 to 1600 as well as Built-in Flash and Face Detection capabilities. The new Canon PowerShot ELPH also boasts a three (3) inch wide-viewing Color LCD

monitor. The monitor is equipped with pixels of approximately 4.6k dots and enables coverage of approximately 100 percent.
