Philip K. Dick award, and one of the founding fathers of cyberpunk comes a novel about a very modern nightmare: the most destructive computer virus ever has been traced to your machine. Computer programmer Jerzy Rugby spends his days blissfully hacking away in cyberspace — aiding the GoMotion Corporation in its noble quest to create intelligent robots. Then an electronic ant

gets into the machinery ... then more ants .... then millions and millions of the nasty viral pests appear out of nowhere to wreak havoc throughout the Net. And suddenly Jerzy Rugby is Public Enemy Number One, wanted for sabotage, computer crime, and treason — a patsy who must now get to the bottom of the virtual insectile plague. *Voices of Hope*  
Hachette UK  
Fueled by media reports of gender bias in the schools, the debate over single sex education has been recently renewed. "Voices of Hope" asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from

---

ninth grade through the first year of college. Case studies capture the girls' own voices as they describe their hopes for their futures and the events that subsequently affect those futures.

This multiauthor clinical guide provides an evidence-based overview of orthodontic management during development of the dentition. It begins with an illustrated account of normal dental development and then

covers the management of problems that are commonly seen during this process. These include acquired problems, such as caries, space loss and dental trauma, developmental anomalies, including variation in tooth number and eruption defects. In addition, detailed consideration is given to the interceptive management of class II and class III malocclusion and transverse discrepancies. There is an emphasis on evidence-based

management of these developmental problems and each chapter is richly illustrated with clinical examples.

With this book, author Alexander S. White provides users of the RX10 IV with a

---

manual covering all aspects of the camera's operation. Using a tutorial-like approach, the book shows beginning and intermediate photographers how to accomplish things with the RX10 IV, and explains when and why to use the camera's many features. The book provides details about the camera's shooting modes as well as its menu options for shooting, playback, setup, video, Wi-Fi, and special effects. The book covers all features of the RX10 IV that are new for this model, including its enhanced focusing system

with phase detection autofocus; its ability to use a touch screen for focusing and enlarging images in some situations; and a variety of new or enhanced menu options. The book includes more than 500 color photographs that illustrate the camera's controls, display screens, and menus. The images include photographs taken using the RX10 IV's Scene mode, with settings optimized for subjects such as landscapes, sunsets, portraits, and action shots; and its Creative Style and Picture Effect menu

options, with settings that alter the appearance of images. The book provides concise introductions to topics such as street photography and infrared photography, and explains how to use the camera's Wi-Fi and Bluetooth features to transfer images to a smartphone or tablet, to control the camera from such a device, and to add location information to images. The book includes a full discussion of the video features of the RX10 IV, which can shoot HD and 4K (ultra-HD) movies, with manual control of exposure and

---

focus during recording. The book explains the camera ' s numerous features for professional-level videography, including Picture Profiles that allow adjustment of settings such as gamma curve, black level, knee, and detail. The book describes steps for recording 4K video to an external video recorder using the " clean " video output from the camera ' s HDMI port. In three appendices, the book discusses accessories for the RX10 IV, including cases, power sources, remote controls, microphones and

external flash units, and includes a list of websites and other resources for further information. The book includes an appendix with " quick tips " on how to take advantage of the camera ' s features in the most efficient ways possible. This guide to the RX10 IV includes a detailed index, so the reader can quickly locate information about any particular feature or aspect of the camera.

With body piercing and tattooing becoming more popular and mainstream, many teens may think about engaging in these forms of body modification. An excellent resource for young people pondering a piercing or tattoo, this title presents some of the pros and cons they should consider. In an honest and engaging manner, the author presents important information teens need to protect their health, including how to identify a reputable studio, what to expect

---

from the procedures, and how to do proper aftercare. Legal, social, and familial issues are explored, too, including the importance of discussing the decision with their parents and choosing tattoos or piercings they can live with throughout adulthood. An incalculable number of light years from the warmth of the sun. When the rain falls, it falls in droplets of grief, and when the light shines, it is in waves and particles of

grief. From whatever direction the wind blows – south, east, north or west – it blows cinders of grief before it. Grief stings your eyes and sucks the breath from your lungs. No oxygen on this planet, no nitrogen; the atmosphere is composed entirely of grief. [By the Time You Read This, page 37] Catherine Cardinal, wife of Sergeant John Cardinal, is dead. Ruled a suicide, it

---

comes as no real surprise to those who knew her. Catherine had suffered from manic depression for over twenty years. Long stints of hospitalization were followed by healthy periods permeated by worry and anxiousness that everything would once again disintegrate. Her last hospital stay had been over a year ago. Catherine had been finding

peace and fulfillment in her photography and taking her medication regularly. From years of experience, Cardinal had taken all of these signs to be positive and hopeful. So along with coping with devastating grief, Cardinal is confused. Although a suicide note in Catherine ' s handwriting was found at the scene, Cardinal isn ' t convinced that his wife was

responsible for her own death. She was distracted when she left to take pictures the night she died, but she was nowhere near the despondent state she attained when she was ill. It wasn ' t adding up. Everyone in the department, even his partner, Lise Delorme, believes Cardinal ' s refusal to accept his wife ' s suicide is only the denial that comes with the

---

agony of his loss. Even his daughter, Kelly, has accepted her mother ' s fate. But when Cardinal receives a card with a typewritten note inside taunting him about his wife ' s death, he is resolute that someone has murdered Catherine. In Cardinal ' s line of work, a man can pile up a lot of enemies. The first likely suspect that comes to his mind is Kiki B., an " associate "

of a drug dealer, Rick Bouchard, who he had sent to prison. Kiki B. knew where Cardinal lived and he had an axe to grind – Bouchard had been killed while serving his sentence. With Delorme wrapped up in a nasty sex crimes case, Cardinal goes it alone. When Kiki B. turns out to have made a career change, Cardinal moves on to other members of the criminal element he ' d

had the pleasure to put away. As he moves through a long line of suspects, Cardinal finds himself settling on perhaps the most unlikely suspect of all. Red Bear stood close to the fire and stretched toward the sky, every muscle in his body straining. The veins in his neck stood out like electrical cords. His voice had gone thin and raspy and the words came streaming out of him with a terrible urgency. The words – if in fact they were words – collided with one another. [Blackfly Season, page 94]

According to Detective John Cardinal, the

truly diabolical thing about blackflies is their stealthy silence; there is no warning and no chance of a pre-emptive strike. Every year at the beginning of May, the blackflies take over Algonquin Bay, swarming in clouds out of their winter wombs in the standing water of lakes, creeks and swamps. But this year, the blackflies aren't the only ones to make their way into town. A self-proclaimed shaman and card-carrying member of the Chippewa First Nations has also arrived. Known only as Red Bear, the mysterious figure

has recruited three young men from town who share a history of drug use and living on the fringe. And Red Bear isn't the only mysterious visitor. At the World Tavern, the oldest but perhaps least reputable bar in the city of Algonquin Bay, OPP officer Jerry Commanda is enjoying his regular Friday night Diet Coke with a squeeze of lemon. He meets a young red-haired woman who is unable to tell him her name, where she lives, or how she came to be at the World Tavern. It's not until a hospital X-ray reveals a bullet lodged in

---

her brain that the reason for her amnesia becomes clear. When John Cardinal and Lise Delorme are called in to take over the case from Commanda, they don't have a lot of leads on who this mysterious redhead is, let alone why someone would want her dead. And when the mutilated body of a member of the local biker gang the Viking Riders is discovered near long columns of bizarre hieroglyphics, Cardinal and Delorme begin to suspect that it isn't just Viking Rider justice. Despite the climbing body count, Cardinal is distracted. His wife, Catherine, has left to go to Toronto with a group of her photography students and Cardinal is convinced that the stress and excitement of the trip will push her to the breaking point. His worst fears are confirmed when a call reaches him from a student concerned by Catherine's erratic behaviour. Cardinal speeds to Toronto to reach his wife before she unravels. When Cardinal returns, a third body turns up with a bullet from the same gun that shot the redhead. Linking the three murders and finding out who's responsible becomes an intricate game of unravelling the secrets of families and decoding the mysteries of an ancient form of African voodoo.

Updated, expanded, and covering the latest software, this new edition of the bestselling Digital Landscape Photography brings the amazing techniques pioneered by Ansel Adams and his contemporaries to every digital photographer. Ansel Adams' imagery - especially his iconic vision of the American National Parks - is widely published and

instantly recognisable. Many photographers will have heard of his renowned Zone System, but that is just the tip of the iceberg; his unparalleled attention to detail, which once required hours in the darkroom with specialist tools, is finally accessible to all. Michael Frye's own photography provides many stunning examples of the results that can be achieved, and as one of Adams' natural successors in the field, he is well placed to analyse the many inspirational shots from the great masters of

landscape photography. Combining the cutting edge of today's digital work with some of the best-known photos ever taken, this book a must-read for any landscape or nature photographer. Asian Botanical Journal Peachpit Press
