" This house, this place, knows all my secrets. " It is a perfect August morning, and Elle, a fifty-year-old happily married mother of three, awakens at " The Paper Palace " —the family summer place which she has visited every summer of her life. But this morning is different: last night Elle and her oldest friend Jonas crept out the back door into the darkness and had sex with each other for the first time, all while their spouses chatted away inside. Now, over the next twenty-four hours, Elle will have to decide between the life she has made with her genuinely beloved husband, Peter, and the life she always imagined she would have had with her childhood love, Jonas, if a tragic event hadn ' t forever changed the course of their lives. As Heller colors in the experiences that have led Elle to this day, we arrive at her ultimate decision with all its complexity. Tender yet devastating, The Paper Palace considers the tensions between desire and dignity, the legacies of abuse, and the crimes and misdemeanors of families.

Fouberg/Murphy: Human Geography: People, Place, and Culture, 12th Edition, teaches students to appreciate the diversity of people, places, and cultures, and understand the role people play in shaping our world. The goals of this edition are to provide geographic context to global, regional, national, and local issues and to teach students to think geographically and critically about these issues. Human Geography features beautifully designed maps, dozens of vibrant photographs taken by the author team, and author and guest field notes that help students see how geographers read cultural landscapes and use fieldwork to understand places. Fouberg ' s Human Geography, 12th Edition, now integrates Threshold Concepts to help students develop their ability to think geographically. Once they learn and apply one of these concepts in the context of a given place, students integrate it into their thinking and can draw from it as they learn new material and explore other places.

Country size, flags, language currency, religion, climate and population. Flag, flag colors, other flag attributes. Physical Geography jargon. World record facts regarding geography. Challenging multiple choice questions: We have seen several quiz books that have a poor selection of multiple choice questions, such as example below... What is the highest mountain in Turkey? A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C. Instead of this approach, we have kept the quiz more like shown below to make this strategy of quizzing harder for the challenger... What is the highest mountain in Turkey? A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu Although it may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering. "This book explains why nearly 30 years after the transition to democracy, the South African government continues to evict squatters from urban land. It argues that housing officials view occupiers as threats to the government's housing delivery program, which, they insist, requires order and state control. New occupations are therefore stigmatized as "disorderly" threats, and government actors represent their removal as a precondition for access to housing. Drawing on a decade of sustained ethnographic fieldwork in two such occupations in Cape Town, this study explains why one was evicted, whereas the other was ultimately tolerated, answering a central question in urban studies: how do governments decide when to evict, and conversely, when to tolerate? These decisions are not made in a vacuum but instead require an analysis that expands what we typically call "the state." This book argues that the state does not simply "see" occupations, as if they were a feature of the natural landscape. Rather, occupiers collectively project themselves to government actors, affecting how they are seen. But residents are not only seen; they also see, which shapes how they organize themselves. When residents see the state as an antagonist, they tend to unify under a single leadership; but when they see it as a potential ally, they often remain atomized as if they were individual customers. The unity in the former case projects an orderly population, less likely to be evicted; but the fragmentation in the latter case projects a disorderly mass, serving to legitimate eviction rulings"--
