In the 1950s, East Central Florida underwent a vast transformation with the creation of the American space program. The sleepy fishing communities stretching from Titusville to Melbourne became home to an army of engineers, rocket scientists, and technicians who would soon take Florida and the nation into the missile age. With no opportunities for advanced study nearby, a handful of determined men and

women launched Brevard Engineering College in 1958. In 1966, Florida's secretary of state approved the college's petition to change its name to Florida Institute of Technology. In its short history, Florida Tech has overcome formidable hurdles and succeeded in winning a place in the top ranks of scientific and technological universities. A college on the rise, Florida Tech has not only a bright future, but a rich and colorful history that has been captured in striking photographs. The exciting story of "Countdown College"-from the lift-off of Bumper 8 in 1950, which launched the space program in Florida, to the most recent high-tech additions to campus facilities-is the subject of this captivating new pictorial history.

New York Times bestselling author Laura Thompson returns with *Heiresses*, a fascinating look at the lives of

heiresses throughout history and the often tragic truth beneath the gilded surface.

*Heiresses*: surely they are among the luckiest women on earth. Are they not to be envied, with their private jets and Chanel wardrobes and

endless funds? Yet all too often those gilded lives have been beset with trauma and despair. Before the 20th century a wife's inheritance was the property of her husband, making her vulnerable to kidnap, forced marriages, even confinement in an asylum. And in modern times, heiresses fell victim to fortune-hunters who squandered their millions. *Heiresses* tells the stories of these million dollar babies: Mary Davies, who inherited London's most valuable real estate, and was bartered from the age of twelve; Consuelo

---

Vanderbilt, the original American "Dollar Heiress", forced into a loveless marriage; Barbara Hutton, the Woolworth heiress who married seven times and died almost penniless; and Patty Hearst, heiress to a newspaper fortune who was arrested for terrorism. However, there are also stories of independence and achievement: Angela Burdett-Coutts, who became one of the greatest philanthropists of Victorian England; Nancy Cunard, who lived off her mother's fortune and became a pioneer of the civil rights movement; and Daisy Fellowes, elegant linchpin of interwar high society and noted fashion editor. Heiresses is about the lives of the rich, who—as F. Scott Fitzgerald said—are 'different'. But it is also a bigger story about how all women fought their way to equality, and sometimes even found autonomy and fulfillment.

The Merchant of Venice has been performed more often than any other comedy by Shakespeare. Molly Mahood pays special attention to the expectations of the play's first audience, and to our modern experience of

seeing and hearing the play. In a substantial new addition to the Introduction, Charles Edelman focuses on the play's sexual politics and recent scholarship devoted to the position of Jews in Shakespeare's time. He surveys the international scope and diversity of theatrical interpretations of The Merchant in the 1980s and 1990s and their different ways of tackling the troubling figure of Shylock. *Politics By Other Means* Cambridge University Press

Significant changes have taken place in the policy landscape surrounding cannabis

legalization, production, and use. During the past 20 years, 25 states and the District of Columbia have legalized cannabis and/or cannabidiol (a component of cannabis) for medical conditions or retail sales at the state level and 4 states have legalized both the medical and recreational use of cannabis. These landmark changes in policy have impacted cannabis use patterns and perceived levels of risk. The Well of Loneliness, first published in 1928, is a timeless portrayal of lesbian love. The thinly disguised story of Hall's own life, it was banned outright upon publication and almost ruined her literary career as the subject was that of an

obscurity trial and forbidden at the time in England. The novel tells the story of Stephen, an ideal child of aristocratic parents—a fencer, a horse rider and a keen scholar. Stephen grows to be a war hero, a bestselling writer and a loyal, protective lover. But Stephen is a woman, and is attracted to women. As her ambitions drive her, and society incarcerates her, Stephen is forced into desperate actions. Although Gordon's attitude toward her own sexuality is anguished, the novel presents lesbianism as natural and makes a plea for greater tolerance. It became an

international bestseller, and for decades was the single most famous lesbian novel.

Pearson  
Criminal defence at the investigative stage has attracted growing attention

due to the shifting focus of the criminal process onto pre-trial stages, and the recent European regulations adopted in this area. Increasingly, justice practitioners and legislators across the EU have begun to realise that 'the trial takes place at the police station'. This book provides a comprehensive legal, empirical and contextual analysis of criminal defence at the investigative stage from a comparative perspective. It is a socio-legal study of criminal defence practice,

---

which draws upon original empirical material from England and Wales and the Netherlands. Based on extensive interviews with lawyers, and extended periods of observation, the book contrasts the encountered reality of criminal defence with the model role of a lawyer at the investigative stage derived from European norms. It places the practice of criminal defence within the broader context of procedural traditions, contemporary criminal justice policies and lawyers' occupational

cultures. Criminal Defence at Police Stations questions the determinative role of procedural traditions in shaping criminal defence practice at the investigative stage. The book will be of interest for criminal law and justice practitioners, as well as for academics focusing on criminal justice, criminology, socio-legal studies, legal psychology and human rights.
