"A gentleman when the game was hard-bitten, played by rough-and-ready lads out to win whatever the cost..." Australia had few sporting heroes in the years preceding its federation in 1901. But before its 20th-century Olympic trailblazers and Depression-era icons such as Phar Lap and Don Bradman, came an Australian sporting pioneer who was celebrated on the most glamorous stage in the world--American major league baseball. Joe Quinn's story has, until now, been lost in the land of his birth. This tale gallops from the deprivation of famine-ravaged Ireland through colonial Australia to the raucous ballfields of 19th-century America, with their unruly players and owners, brawls and adulation and backroom betrayals. Through 17 seasons in the major leagues, "Undertaker" Joe Quinn earned his place among the colorful characters who pioneered the modern game of baseball, as much for his ability to stand apart from their bad behavior as for his steadfastness on the field. Meet Australia's first professional baseball player (and manager), whose willingness to "have a go" in the grand Australian tradition will live long in the minds of sports fans on both sides of the Pacific.

Current drug treatments for Alzheimer's disease (AD) appear to be symptomatic. There is an increasing priority to find effective and safe disease-modifying and preventive treatment strategies for cognitive decline, AD, and dementia. Recent developments have allowed the identification of possible pathogenic processes and pathways, and potential targets for intervention. Cerebrospinal fluid (CSF) biomarkers of β -amyloid and tau, and neuroimaging including amyloid PET tracer retention show that the pathogenic process begins many years before symptoms appear. A number of preventive trials have been completed but so far none has demonstrated significant benefits and some were potentially harmful. New preclinical treatment trials are underway in people at the highest risk of developing AD in the following few years. A US National Institutes of Health panel found no evidence of even moderate scientific quality to clearly support the association of any modifiable factors with a reduced risk of cognitive decline or AD. The best current evidence suggests that heart-healthy eating patterns such as the Mediterranean diet may help to protect the brain. Future preventive approaches will need to harness the increased technological advances concerning biomarkers with new hypotheses driven by a better understanding of the relevant risk factors.

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

As a cricketer, David Gower was famed for the elegance of his strokeplay as one of England's greatest batsmen and for his superb fielding. As a captain, he led his country to Ashes success, yet some queried his application because it all seemed to come to him so easily and effortlessly. But that was never the whole story: Gower was always committed and a great competitor, as this fascinating and frank book, looking back on his life and career, shows. Once he retired from the game, Gower built a new career for himself, first as team captain in the long-running TV comedy series *They Think It's All Over*, and then as an astute and charming presenter and commentator with Sky Sports. After more than 30 years as one of the most popular figures in the game, Gower now reveals there is so much more to his story than the cliched image of 'Lord' Gower flying in his Tiger Moth. He is a man of great insight, determination and drive, but who also knows there is always more to be had from life.
